Individual Market – Change in Number of Plans from 2015

- Large decrease of plans offered in Cook County
 - IlliniCare withdrew multiple plans that offered the same medical benefit packages with the only difference in coverage being the options to have adult dental and/or adult vision. This accounts for a reduction of 44 plans.
- HCSC no longer offers its broadest statewide PPO, which results in fewer options in more rural areas

SUBSIDY INFORMATION

Background Information on Subsidies

- Advanced premium tax subsidies (“subsidies”) are available to residents of Illinois, who are eligible and enroll in a qualified health plan through the GetCovered Illinois Marketplace
- Subsidies are calculated using the second lowest silver plan available to that member and vary by a member’s income status and family status.
 - Members can apply their subsidies to the other QHP plans, but typically the lowest cost silver plan or bronze level plans in order to reduce the premium required.
 - Examples of the calculations are shown in later slides.

Summary of Subsidy Information in Illinois

- Net premiums for the lowest cost silver or bronze plans can vary significantly by geography – because of the rate differential in the plans and the competition of carriers
 - For example: Using the information for a single 30 year old male earning \$23,000 (see next slide for more details):
 - The rate differential in 2016 between the lowest and 2nd lowest plans in Chicago has been very low (\$173 and \$175) – as such the net premiums to the consumers are within \$2 of each other (\$117 and \$119)
 - On the other hand, the rate differential between the lowest and 2nd lowest plans in Peoria is greater (\$255 and \$228) – the result is that the net cost for the lowest silver plan is under \$100 (\$92) while the 2nd lowest is greater (\$119)
- Net premiums can vary significantly from year to year due to competition of carriers and variance from the 2nd lowest silver.
 - For example (see next slide): The net premiums for lowest bronze plan in Peoria changed from \$44 per month in 2014 to \$68 in 2015 back down to \$44 in 2016

**Subsidies and tax credits may lower costs further for many individuals and families:
Example 1: Single 30-year old, with household income of \$23,000**

Based on household income, the individual may qualify for premium subsidies to limit net cost for a 2nd lowest cost silver plan to ~\$119 per month

In Chicago	2016			2015			2014		
	Premium	Subsidy	Net Cost	Premium	Subsidy	Net Cost	Premium	Subsidy	Net Cost

Definitions

- Small Group Plan – Health insurance plan for businesses with 2-50 employees. Illinois has chosen not to expand the definition to 99 employees.
- Indemnity Plan – type of medical plan that reimburses the patient and/or provider as expenses are incurred.
- Metal Levels (Platinum, Gold, Silver, Bronze) – Tiers or levels of health plans designed to make it easier for shoppers to compare options. More than one plan may be available in each level. The premiums typically increase from bronze to platinum metal levels, while the out-of-pocket costs for enrollees decrease from bronze to platinum metal levels.

Average Plan Value by Metal Level

Exchange Health Plan Requirements

- Meet network sufficiency standards
- Remove the lifetime limit on benefits
- Not allowed to discriminate or discourage consumers with existing health problems
- Expanded coverage options for young adults
- Spend at least 80 cents of every premium dollar on care
- Provide essential health benefits

Essential Health Benefits

- Ambulatory patient services
- Emergency services
- Hospitalization
- Maternity and newborn care
- Mental health and substance use disorder services, including behavioral health treatment
- Prescription drugs
- Rehabilitative and habilitative services and devices
- Lab services
- Preventive and wellness services and chronic disease management and
- Pediatric services, including oral and vision care

Types of Products Offered

- HMO – A health care system that assumes both the financial risks associated with providing comprehensive medical services (insurance and service risk) and the responsibility for health care delivery in a particular geographic area to HMO members, usually in return for a fixed, prepaid fee. Financial risk may be shared with the providers participating in the HMO.
- PPO – Preferred Provider Organizations – An indemnity plan where coverage is provided to participants through a network of selected health care providers (such as hospitals and physicians). The enrollees may go outside the network, but would incur larger costs in the form of higher deductibles, higher coinsurance rates, or nondiscounted charges from the providers.
