PAT QUINN
GOVERNOR

Michael T. McRaith
DIRECTOR

**To the Honorable Pat Quinn, Governor
and the Honorable Members of the General Assembly**

In compliance with 40 ILCS 5/1A-108 of the Illinois Pension Code, I am pleased to submit the 2009 Biennial Report of the Department of Insurance on the activities of its Public Pension Division and the financial condition of the state's 657 public pension funds and retirement systems.

At the end of FY08 the aggregate net assets of the 351 suburban and downstate police funds and those of the 291 firefighter funds were over 7.7 billion dollars. The aggregate net assets of the 15 statewide, Cook County and Chicago pension funds and retirement systems were over 127.4 billion dollars. The Pension Division staff monitors the compliance activities of those public pension funds with state statutes.

The period covered by this report has been one of expansion. The years 2007 and 2008 saw an increase in the number of public pension funds, members, trustees, assets, and beneficiaries. Expansion of member benefits, investment authority, compliance audits, electronic filings, advisory services, statistical services and communications with the various pension funds also occurred during these years.

Sincerely,

Michael T. McRaith
Director

BIENNIAL REPORT 2009

The Public Pension Division of the Division of Insurance was originally established by authority of an Act of the 66th General Assembly in 1949. This legislation superseded and repealed a former law enacted in 1927. The Division functioned under the 1949 Act until July 1, 1963, at which time it became subject to Article 22, Division 5 of the Pension Code. The Illinois Compiled Statutes (ILCS) effective January 1, 1993, changed the Pension Code to Act 5 of Chapter 40 ("Pensions"). Article and section numbers within the Code remain the same and need only to be preceded by "5/". PA 90-507 moved the Public Pension Division Article (40 ILCS 5/22) to Article 1 of the Pension Code under the new heading 40 ILCS 5/ Article 1A.

Chapter 40 ILCS 5/1A-101 states, "There is created in the Department of Insurance a Public Pension Division which, under the supervision and direction of the Director of Insurance, shall exercise the powers and perform the duties and functions prescribed under this Code."

The Pension Code sets forth four broad areas of authority which guide the entire operation of the Division:

1. Examinations and investigations of the affairs of all public employee pension funds and retirement systems in the state;
2. Accumulation of financial and statistical data pertaining to the operation of all such funds and systems;

3. Offering of advisory services to pension trustees and participants, as well as members of the General Assembly; and
4. Automation of the Division's operations, services, and communications to the fullest practical extent.

The Division's activities in these areas of authority vary in degree and intensity. The suburban and downstate police and fire pension funds often do not have staff support and many times the Division, by default, functions in this capacity. The Chicago, Cook County, and statewide pension funds and retirement systems have professional staff support for their trustees, and the Division's role is more of coordination.

The years 2007 and 2008 have, as in years past, were years of expansion. Not only did the number of pension funds increase during these years, but the pension funds also experienced an increase in the number of members, the number of trustees, the amount of assets, and the number of beneficiaries. The Public Pension Division oversaw the expansion of member benefits, investment authority, annual statements, advisory services, statistical services and communication with the various pension funds. All of this expansion was accomplished by the Public Pension Division with no increase of personnel.

The Division maintains records of the members, trustees, officers, size, and growth of public pension funds within the State of Illinois. Pension funds are

moving into a dramatic growth phase. The total number of funds has increased to 657 police, firefighter, and large funds. These funds include over 3200 trustees. The total net assets have increased to over 135 billion dollars. The total number of participants for the year 2008 has increased to over 620,758 and total benefits paid in the year 2008 were \$10,497,438,217 to 386,975 beneficiaries.

INVESTIGATIONS AND EXAMINATIONS

Chapter 40 ILCS 5/1A -104 states, "The Division shall make periodic examinations and investigations of all pension funds established under this Code and maintained for the benefit of employees and officers of governmental units in the State of Illinois."

A major responsibility of the Pension Division is to conduct on-site and automated compliance audits. The 642 downstate and suburban police and firefighter pension funds range from very small (1 or 2 participants) to very large (500 participants plus). The examination of a small fund is typically completed within days. The examination of a larger fund may take months. The Division has developed an automatic audit process, which has greatly improved the previous system by allowing the auditors to perform more audits.

Pursuant to 40 ILCS 5/1A-104 the Division implemented examinations for the Chicago and Cook County pension funds under an "agreed upon procedures process" and in conjunction

with their annual CPA financial audit. This process has been beneficial to both the pension fund and the Division by concentrating on areas not previously covered in the annual financial audit.

Though the Division has the authority to perform compliance audits on all pension funds and retirement systems created by the Pension Code, the Auditor General performs audits on statewide pension funds funded by the state.

An examination conducted by the Division encompasses a compliance audit, which includes a comprehensive review of management and administrative practices of the board of trustees. The Division reviews in detail all action taken by the board pertaining to the operation of the fund to determine compliance with state law. A written report is prepared by the Division reflecting the results of the examination. The report summarizes the examiner's findings and contains specific recommendations to the board of trustees for implementing any required actions.

After the board implements the corrections, or if no corrections are required, the report is filed as a public record. The Division refers specific findings of non-compliance that are not corrected by the board of trustees to the Director of Insurance for appropriate action.

Because of limited field staff and the great diversity in the size of suburban and downstate police and firefighter funds, the Division has implemented automated on-site field audits. The total number of audit findings for the two

years were 866, The two greatest demands of field audits are reviewing payroll records for correct contributions withheld and checking benefit calculations. Incorrect contributions and benefit calculations are responsible for the highest percentage of audit findings. The second highest percentage is due to management and administration issues, and investment activities account for the third highest. The audit findings emphasize the need for better record keeping and documentation of the board's activities.

- A detailed statistical report showing active membership of the fund;
- Information pertaining to benefits being paid;
- A complete investment portfolio breakdown; and
- An actuarial valuation report stating liabilities of the system.

Division personnel audit annual statements and refer any discrepancies to the respective retirement system for explanation or changes.

COLLECTION OF FINANCIAL, ACTUARIAL, AND STATISTICAL DATA

Chapter 40 ILCS 5/1A-109 states,

"Each pension fund shall furnish to the Division an annual statement in a format prepared by the Division."

As the state's central repository of public pension information, the Division receives data from all 657 pension funds and retirement systems. The Division uses this information not only to generate biennial reports to the General Assembly but also to prepare various special reports used by organizations and government agencies for a variety of purposes. Although different formats are used in reporting the required information, data submitted by each system includes the following:

- An income statement and balance sheet reflecting all financial activities of the fund;

The Division maintains historical annual statement and correspondence files on each of the 657 downstate and suburban police and firefighter pension funds and retirement systems dating back for years. Gathering, entering, storing, and retrieving this information has been an overwhelming manual task. Electronic Filing Rule, 50 Ill. Adm. Code 4405-30, effective December 1, 1997, requires all pension, annuity or retirement funds or systems regulated by the Pension Division to file mandatory annual statements electronically. This process has greatly increased the Division's ability to receive such a high volume of data and to store and retrieve it in a timely manner. The Division has developed an automated application for the complex and sophisticated techniques involved in pension calculations and actuarial computations such as tax levies. The Division provides data and information about administrative and operational factors that impact public pension funds and statistical models for pension analysis and planning. To address the significant problem of errors in the data submitted to us from pension funds, the Pension Division has created a system

that validates the data upon the filing of an annual statement. These changes have resulted in cleaner data from the pension funds which translates into better information on the condition of each public pension fund.

ADVISORY SERVICES

Chapter 40 ILCS 5/1A-106 states, "The Division shall render advisory services to the pension funds on all matters pertaining to their operations and shall recommend any corrective or clarifying legislation that it may deem necessary." The section also states, "The recommendations may embrace all substantive legislative and administrative policies, including, but not limited to, matters dealing with the payment of annuities and benefits, the investment of funds, and the condition of the books, records, and accounts of the pension fund."

Through the Advisory Services program, the Division: participates in workshops, seminars, and conferences of various organizations representing trustees and participants to clarify pension issues; maintains a toll-free number exclusively for use by trustees; issues a trustee handbook; provides updates on legislation, annual statement issues and other information through mass mailings; and provides suggested tax levies for downstate police and fire pension funds.

The Pension Advisory Services Committee is composed of all fire, police, and municipal organizations and individual trustees who do not represent any organization. The following organizations are members: Illinois Municipal Treasurers Association, Illinois Professional Firefighters Association, Illinois Municipal League, Illinois Public Pension Fund Association, Police Benevolent and Protective Association, Associated Firefighters of Illinois, Illinois Police Association, Illinois Government Finance Officer's Association, and the Illinois Public Pension Advisory Committee. The following are members-at-large: Kelly Weller, Craig Larson, Bill Stafford, Matthew Williams, Cary Collins, Greg Knoll, Dave Wall, Sherry Lauterbach, and Jerry Kosik.

ACTUARIAL SERVICES

The Division performs an actuarial study and calculates tax levies for the 642 downstate and suburban police and firefighter pension funds. This information is sent to all funds for use with their local municipalities. The Division also performs complicated calculations for police portability and answers questions about this benefit. Historical tax levy calculations, as well as calculations for the legislature, are supplied to local pension funds upon request.

This chapter is devoted to the presentation of financial, statistical, and actuarial data summarized to show the overall condition of the pension funds and retirement systems operating for the benefit of public employees in the State of Illinois.

The financial and statistical information presented was compiled from annual reports submitted to the Division of Insurance by each fund or systems as required by Section 1A-109 of the Illinois Pension Code. Actuarial data was obtained from the consulting actuary of each system. In the case of the downstate police and firefighter funds, this data was gathered and prepared by the Public Pension funds even though, in some instances, the municipality or the fund trustees have employed their own actuary.

All numbers presented in this chapter reflect the close of the most recently completed fiscal year as reported to the Division.

**Total Accrued Liabilities,
Net Assets, and Unfunded Accrued
Liabilities**

The total accrued actuarial reserve liabilities amount to \$193,613,347,597. The combined net assets total \$131,356,557,623. The unfunded accrued liabilities total \$62,256,789,974. The aggregate rate of funding is 67.8%.

Table 1 on the following page presents the funding status of all funds and systems at the end of each fund's 2004 fiscal year. Table 1 shows each fund's financial condition in terms of funded and unfunded actuarial liabilities.
