## INTRODUCTION

In compliance with Section 1A-108 of the Illinois Pension Code (40 ILCS 5/1A-108), the Public Pension Division (“Division”) of the Illinois Department of Insurance (“Department”) submits the 2019 Biennial Report (“Report”) on the activities and recommendations of the Division and the financial condition of the State of Illinois’ public retirement systems and pension funds for the fiscal years 2017 and 2018, based on the submitted data from the fiscal year annual statements.

## EXECUTIVE SUMMARY

The Division is tasked with the compilation, maintenance, and reporting of the financial, statistical, and actuarial data of the public retirement systems and pension funds in the State of Illinois. Note, the terms “large funds” and “retirement systems” are used in the report to refer exclusively to the 15 large public pension funds encompassing the regional governmental employers within the State of Illinois. The terms “suburban and downstate pension funds” and “pension funds” denote the active fire and police pension funds located outside of Chicago. The pension funds, regulated under Article 3 and Article 4 of the Illinois Pension Code, are locally financed funds in municipalities with a population greater than 5,000 but less than 500,000, employing a full-time police or fire workforce with an exception: a fire protection district with one full-time member does not need to meet the population requirement. Section 1A-108 of the Illinois Pension Code (40 ILCS 5/1A-108) states that “the Division shall submit a report to the Governor and General Assembly setting forth the latest financial statements on the pension funds operating in the State of Illinois, a summary of the current provisions underlying these funds, and a report on any changes that have occurred in these provisions”, as of the last report and “the report shall include the results of examinations made by the Division of any pension fund and any specific recommendations for legislative and administrative correction that the Division deems necessary.”

Data submitted by the retirement systems and the pension funds in their annual statement reports to the Division for the fiscal years ended 2017 and 2018, pursuant to the provisions of the Illinois Pension Code (40 ILCS 5/1 et seq.), showed the following aggregate values for the retirement systems:

- The aggregate value of actuarial liabilities \$342.4 billion in fiscal year 2017 and \$357.9 billion in fiscal year 2018.
- The aggregate actuarial value of assets was \$ 163.6 billion in fiscal year 2017 and \$170.0 billion in fiscal year 2018.
- The aggregate value of unfunded actuarial liabilities was \$178.8 billion in fiscal year 2017 and \$187.8 billion in fiscal year 2018

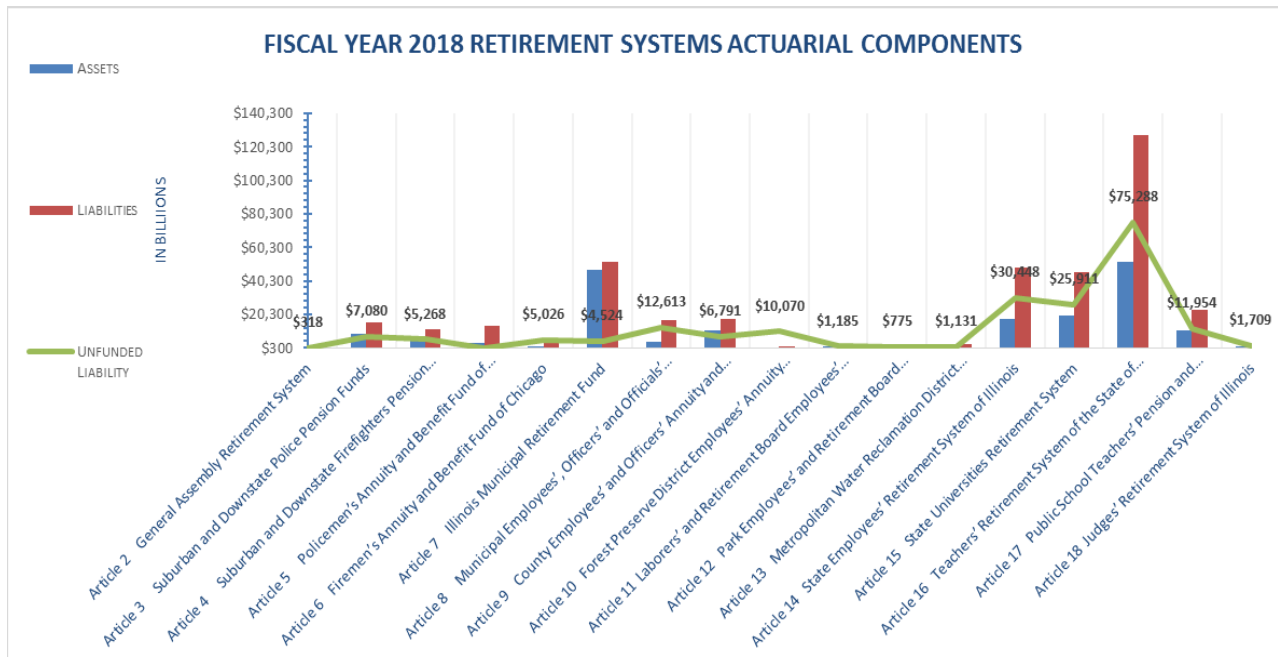

- The aggregate actuarial funded ratio was 47.8% in fiscal year 2017 and 47.5 % in fiscal year 2018

The data of the suburban and downstate pension funds, Article 3 and Article 4, showed the following aggregate values for the pension funds:

- The aggregate value of actuarial liabilities was \$ 25.8 billion in fiscal year 2017 and \$ 27.3 billion in fiscal year 2018.
- The aggregate actuarial value of assets was \$14.3 billion in fiscal year 2017 and \$14.9 billion in fiscal year 2018.
- The aggregate value of unfunded actuarial liabilities was \$11.5 billion in fiscal year 2017 and \$12.3 billion in fiscal year 2018.
- The aggregate actuarial funded ratio was 55.4% in fiscal year 2017 and 54.8% in fiscal year 2018

The historical actuarial valuation data representing the fiscal year 2014 through fiscal year 2018 active funds is included in Appendix A-1 Retirement Systems and Pension Funds Individual Profile Reports.

Data is based on Reported Actuarial Valuation for the Retirement Funds and the calculated Actuarial Valuation Report for the Pension Funds

The data shows a small decrease of .003 in the funded percentage from fiscal year 2017 to 2018. The highest funded percentage decrease occurred in the Chicago Retirement Systems and the largest dollar change occurred in the Illinois Municipal Retirement Fund. The Chicago Retirement System and the Illinois Municipal Retirement Fund have a December 31 fiscal year end, and the result was a decrease in their investment returns. The data shows a decrease in their market value of investment and investment returns which may be due to the major market change during that time period. The decrease resulted in large losses that over time may be recouped, see the investment return schedule (Appendix B) and the individual financial statements. Detailed financial data on each of the retirement systems and pension funds can be found in the five-year profile summary included in this report.

## STATE OF ILLINIOS RETIREMENT SYSTEMS AND PENSION FUNDS ACTUARIAL UNFUNDED LIABILITIES

### COMPILATION

To compile the financial, statistical, and actuarial data contained in this report, the Division worked with the Department of Innovation and Technology to create the financial reports by extracting the data directly from the annual statements filed with the Division by the retirement systems and pension funds pursuant to the Illinois Pension Code. Filings with the Division were received through the Division’s Pension Annual Statement System (“P.A.S.S.”), which serves as a warehouse of pension fund data and contains a portal through which the public may access information pertaining to the funds. The data submitted by the funds were reviewed for completeness and reasonableness. The data was not changed from the filed data as submitted by the retirement systems and pension funds. For a better understanding and detailed data concerning the retirement system’s pension provisions, summary data sheets were provided to the individual retirement systems for their input and review. We thank them for performing this invaluable review.

The overall summaries were compiled from the data as submitted to provide the five-year overviews of the retirement systems and pension funds. The data in some instances may differ from annual statement data previously filed with the Division due to correction of prior errors and/or post-submission adjustments. Our objective is to provide detailed, comprehensive data that is conducive to further analysis. Other reports for the retirement systems and pension funds are available at: <https://insurance.illinois.gov/Applications/Pension/PensionDataPortal.aspx>

The Division's duties are outlined in Article 1A of the Illinois Pension Code, and apply predominantly to the regulation of suburban and downstate police and fire pension funds covered by Articles 3 and 4, respectively. The Division's responsibilities, as outlined in the Illinois Pension Code, include but are not limited to:

- Rulemaking authority for Articles 3 and 4 (Section 1A-103)
- Examination and investigation authority (Section 1A-104)
- Performance of compliance audits of Articles 3 and 4 pension funds (Section 1A-105)
- Advisory services (Section 1A-106)
- Biennial reporting to the Governor and the General Assembly (Section 1A- 108)
- Review and maintenance of annual statement filings of all retirement systems and pension funds (Section 1A-109)
- Performance of actuarial valuations for Article 3 and 4 pension funds (Sections 1A -111, 3-125, and 4-118)
- Collection of compliance fees (Section 1A-112)
- Limited enforcement authority for noncompliance with the Pension Code (Section 1A-113)

As of the end of calendar year 2018 the Division staffing consisted of seven professionals: an audit supervisor, three compliance auditors, one compliance manager, one pension analyst, and one administrative support person. Four additional compliance auditors joined the Division in fiscal year 2020. The Pension Regulation Fund finances the Division from fees collected from the retirement systems and funds. All retirement systems and pension funds pay a compliance fee of .02% of total assets of the system/fund, limited to a maximum of \$8,000 per system/fund.

Of the 671 fiscal year 2018 active funds in Illinois, 15 are large funds, including state-wide and state-financed funds, City of Chicago funds, and Cook County funds. The other funds are suburban and downstate police and fire funds that are financed locally. The Article 3 and Article 4 suburban and downstate police and fire funds are regulated by the Division in compliance with the Pension Code. The Division's activities and authority vary among the funds. The Chicago, Cook County, and Statewide retirement systems have sufficient operating budgets that allow the fund trustees to hire professional administrators and specialists to assist with their statutory functions. The Division's role with these funds is focused on data collection and a coordination of periodic compliance examination based on agreed upon procedures, where established. The suburban and downstate pension funds are individually managed by five-member trustee boards consisting of two active participants, one retiree, and two municipal appointees. These boards may not have

the resources to engage support staff. Most of the services provided by the Division are utilized by these pension funds.

## INVESTIGATIONS AND EXAMINATIONS

Section 1A-104 of the Pension Code states: “The Division shall make periodic examinations and investigations of all pension funds established under this Code and maintained for the benefit of employees and officers of governmental units in the State of Illinois.”

Pursuant to 40 ILCS 5/1A-104(a), the Division utilizes a periodic examination process for the retirement systems under “agreed upon procedures” and in conjunction with their CPA financial audit. This process is beneficial to both retirement systems and the Division by concentrating on areas not previously covered in the annual financial audit. The Division has the authority to perform compliance audits on all retirement systems and pension funds created under the Pension Code. However, in place of making an examination and investigation, the Division may accept and rely upon a report of audit or examination of the retirement systems by an independent certified public accountant pursuant to the Code. The Division relies upon the Auditor General to perform audits on the five retirement systems funded by the State of Illinois.

A compliance audit of a suburban and downstate police or firefighter fund conducted by the Division includes a comprehensive review of pension awards, contributions, management, and administrative practices of the board of trustees of the pension fund. The Division reviews in detail all actions taken by the board pertaining to the operation of the fund to determine compliance with the Illinois Pension Code, the Illinois Administrative Code, and relevant state law. The Division may perform an on-site audit rather than a desk audit based on available resources and as necessary.

Upon completion of the desk or field audit, a written report is prepared by the Division reflecting the results of the examination. The draft report summarizes the examiner’s findings and contains specific recommendations to the board of trustees for implementing any required actions. The board is given an opportunity to respond to the Division’s findings, after which a final Report of Examination (Report) is prepared with modification made, if warranted. If no hearing on the Report of Examination is requested, a Director’s Order is issued ordering corrective action be taken with respect to the findings contained in the Report.

After the board implements the corrections, or if no corrections are required, the report is filed as a public record. The written response to the audit filed by the pension fund is considered part of the public record.

The most important part of the compliance audit process is the review of pension benefit awards to ensure compliance with the definition of salary in Sections 3-125.1 and 4-118.1 of the Illinois Pension Code and Part 4402 of Title 50 of the Illinois Administrative Code. Benefit noncompliance findings include: incorrect salary used in the calculation of the pension benefit, using salary amounts that are inconsistent with the history of the salary contributions, inclusion of pre-retirement pay increases, and inconsistencies with the salary as defined by the Illinois Pension Code and the Illinois Administrative Code. The audit process includes a review of the fund's operations to ensure that the fiduciaries of the fund comply with the requirements of Article 1 of the Illinois Pension Code and the duties and responsibilities enumerated in Articles 3 and 4 of the Illinois Pension Code. Fiduciary noncompliance findings include: noncompliance with provisions for appropriate trustee training, expense approvals, documentation, filing requirements, and other matters of policies and procedures. A review of the investment assets of the funds is also performed to ensure compliance with allowable limitations based on the types of investments set forth in the Illinois Pension Code.

Section 1A-104 of the Illinois Pension Code was amended to mandate that each fund be audited on a three-year audit cycle. Although no additional resources were provided to comply with the mandate, the Division continues its efforts to achieve compliance. To meet the three-year audit cycle, the Division must close 219 audits per calendar year. During calendar year 2017, the Division closed 32 examinations and in calendar year 2018, 26 examinations were closed. The number of examinations reflects a staffing level of two trained examiners.

The most common examination report findings are:

- Inaccurate Board of Trustees composition
- Failure to annually elect officers
- Incorrect salary used as the basis for the benefit calculation
- Non-salary items included in the final salary used in benefit calculation
- Incorrect entry dates, birth dates, or retirement dates used to determine creditable service time
- Errors in the calculation of cost of living increases
- Initial increased pension amounts are incorrectly compounded
- Failure to deduct employee contributions at the percentage rate prescribed by the Code
- Failure to withhold contributions from all pensionable salary components
- Incomplete membership records
- Incomplete board meeting minutes
- Inaccurate data reported on the annual statement filed with the Pension Division

The Division performs reviews of the annual statement filings of all suburban and downstate pension funds on an annual basis. The review focuses on the reasonableness and completeness

of data reported by the funds for purposes of calculating their annual recommended municipal tax levies. Enhanced reviews are performed, generating information that enables the Division to identify potential risk areas within the funds' operations. The reviews are a key element in the Division's examination planning.

The Division continues to provide support to the suburban and downstate pension fund boards. The Division receives informal and formal inquiries annually through its toll-free hotline (800) 207-6958 and e-mail inbox at DOI.Pension@illinois.gov. Services provided by the Division include the following:

- Responses to oral and written inquiries
- Assistance with calculations associated with benefits, repayments of contributions, and transfers of creditable service
- Assistance with the filing of the annual statement
- Legislative bill review and analysis to identify the potential impact of financial and regulatory changes to the retirement systems and pension funds

The Division continued to improve efficiency of operations during the biennial period. Accomplishments include the following:

- Restructuring compliance and examination work; streamlining the comprehensive review of annual statement filings, and targeting funds for future audits by identifying risk areas during the annual review
- Data integrity was improved by requiring all funds to submit new documentation, allowing for immediate access for review. Documentation included board minutes, bargaining agreements and salary ordinances with their annual statement filings
- Modification to the Pension Annual Statement System to capture more required actuarial data, resulting in a more accurate valuation
- The hiring of new examination staff with the goal of increasing productivity, resulting in an increase in the number of examinations performed on the pension funds
- Enhancements to the Division's Pension Data portal to facilitate the availability of documents without formal Freedom of Information Act (FOIA) request. Toward this end, 183 final reports of examination were redacted and are available for review on the Division's Pension Data Portal see; [\[Listing of Redacted Pension Fund Examination Reports\]](#)

Section 1A-109 of the Illinois Pension Code provides that “each pension fund shall furnish to the Division an annual statement in a format prepared by the Division.” The Division receives and reviews annual statement data from the retirement systems and pension funds. The Division uses this information for a variety of purposes, such as: to generate the biennial report, to prepare special reports used by organizations and government agencies for a variety of purposes, to prepare actuarial valuation reports, and to guide regulatory efforts. The data is collected through an automated annual statement process (called P.A.S.S) accessed through the Department of Insurance’s website. Data submitted by each system includes the following:

- An income statement and balance sheet reflecting all financial activities of the fund
- A detailed statistical report showing active membership of the fund and retirees and annuitants receiving benefits, with expenditure detail
- A complete investment portfolio breakdown

The P.A.S.S. contains an audit program that identifies discrepancies when the annual statement is submitted. Additionally, the Division performs an in-depth review of the participant data information filed as part of the annual statement. The Division reviews the overall information and participant data and works with pension funds to address any discrepancies in their reporting. To accomplish this task, the Division and pension funds review the “Benefit Discrepancy Report” to identify potential problems with participant data submitted for active members, retirees, and beneficiaries in the annual statement filings. If discrepancies are identified, the annual statement filing is rejected, and the fund is notified of the discrepancies so that corrections can be made. Annual statement filings are not accepted until all significant discrepancies are corrected. It is the Division’s goal to ensure that all filings contain accurate data, and the Division works closely with pension funds to address any data issue.

The Division maintains historical annual statement and correspondence files on each of the retirement systems and pension funds. Detailed information is gathered on the suburban and downstate police and fire pension funds, while summary data is maintained on the fifteen statewide, Cook County, and Chicago retirement systems. The automated submission of annual statements through P.A.S.S. has greatly increased the Division’s ability to receive a high volume of data and to store and retrieve it in a timely manner.

## ADVISORY SERVICES

Section 1A-106 of the Illinois Pension Code states, “The Division shall render advisory services to the pension funds on all matters pertaining to their operations and shall recommend any corrective or clarifying legislation that it may deem necessary.” The section also states, “The recommendations may embrace all substantive legislative and administrative policies, including, but not limited to, matters dealing with the payment of annuities and benefits, the investment of funds, and the condition of the books, records, and accounts of the pension fund.”

Through the Advisory Services program, the Division provides a variety of services to the pension funds established under the Illinois Pension Code. This includes:

- Participating in training workshops, seminars, and conferences of various organizations representing trustees and participants to clarify pension issues and to assist trustees in meeting continuing education requirements
- Responding to requests for assistance including formal replies
- Maintaining a toll-free number for use by trustees, municipal officials and the public
- Recommendations to the pension funds to make policy and procedural changes and other corrective actions to achieve compliance with the Illinois Pension Code
- Making available online resources for trustees and participants on the Department of Insurance’s website
- Providing updates on legislation, annual statement issues and other information through electronic mailings and posting on the Division’s website

## ACTUARIAL SERVICES

Sections 3-125 and 4-118 of the Illinois Pension Code state an enrolled actuary employed by the Department or an enrolled actuary retained by the pension fund or municipality shall determine the statutorily required minimum annual employer contribution for the suburban and downstate pension funds. (40 ILCS 5/3-125 and 4-118). The Division maintains a contract with an enrolled pension actuary (Gabriel, Roeder, Smith & Company (GRS)) to perform the independently developed valuation, which is used to populate the actuarial valuation report for each suburban and downstate pension fund. The assumptions used within these developed reports is based on an experience study conducted by GRS. The experience report is posted on the Division’s website as part of the siren listing dated November 04, 2017.

GRS utilizes the data gathered from the annual statements to generate the Division's posted actuarial valuation for each of the suburban and downstate pension funds. The funds may hire an independent actuary to determine the statutorily required minimum annual employer contribution. The assumptions used by a contractual actuary may differ from the assumptions developed by GRS. As a result, the statutorily required minimum annual employer contribution, as selected by the municipality or pension fund, may differ from the Division's amount. The contractual actuarial valuation report must be filed with the Division within nine months of the end of the fund's fiscal year.

The retirement systems use a contracted actuary to perform their actuarial valuation report. This independently developed actuarial valuation report must be filed with the Division within nine months of the end of their fiscal year, under the requirements of Section 1A- 110 of the Illinois Pension Code. The retirement systems actuarial valuation reports are posted on the Division's Pension Portal Data see, [2017 Retirement Systems' Actuarial Report and 2018 Retirement Systems' Actuarial Report] .

The Illinois Pension Code, the Illinois Administrative Code, Sirens, and Statistical Reports, along with updated information regarding the Division, retirement systems, and pension funds can be accessed at: <https://insurance.illinois.gov/applications/pension/>

The Pension Data Portal, allows access to public documents maintained by the Division including the annual statements filed with the Division and the Complete Profile Report for each pension fund at: <https://insurance.illinois.gov/Applications/Pension/PensionDataPortal.aspx>

The Division continually strives to improve its processes and procedures to ensure the integrity of its examinations and the annual statement data. The Division continuously works on improvements to P.A.S.S. while making useful data available to the public and keeping the fund trustees informed in order to facilitate a greater understanding of the responsibilities and requirements under the Illinois Pension Code.

The Illinois Pension Code is a collection of state laws governing the operation and regulation of Public Pension Funds established in the State of Illinois. There are 24 Articles governing the retirement systems and public pension funds operating in the State of Illinois. Article 1 contains laws that generally apply to all the public retirement systems and the public pension funds. Article 1A outlines the Division's duties and responsibilities. The remaining Articles pertain to laws specifically related to individual or related groups of pension funds. The Pension Division was created by the authority granted under Article 1A [ 40 ILCS 5/1A-101].

**Historical Dates of Importance Pension Changes:**

- 1849 – First public safety pension law was passed in Illinois establishing a plan for Chicago fire fighters disabled on duty.
- 1861 – The first pension plan for police officers was established in Chicago.
- 1895 – The first non-public safety pensions were implemented for school teachers and employees.
- 1915 – Law established a Pension Laws Commission. The State Legislature noted that pension laws had not been reviewed nor had the condition of funds created under pension laws been examined. The Pension Laws Commission was created to make investigations and recommendations on the pension laws of Illinois.
- 1919 – First Pension Laws Commission Report was completed and presented to the General Assembly. Among other things, the Pension Laws Commission recommended a standard funding method to endure the financial soundness of the pension systems.
- 1927 – The Illinois State Legislature responded to the initial report by passing an act empowering the Director of Trade and Commerce to examine and report upon pension benefit funds. A new Public Pension report was generated by that agency in 1930.
- 1933 - The Illinois Department of Insurance was invested with the powers previously delegated to the Department of Trade and Commerce.
- 1949 - A division devoted to the regulation of public pensions was established as part of the Illinois Department of Insurance.
- 1963 – The Illinois Pension Code was passed.
- 1970 - The Constitution of the State of Illinois was adopted. Section 5 of Article XIII provides that membership in public pension funds shall be an enforceable contractual relationship.
- 1993 - The Illinois Compiled Statutes changed the citations of the Illinois Pension Code.
- 2008 - Public Act 95-950 was enacted providing that money in state pension funds shall be used for funding the unfunded liabilities, added a fiduciary component and increased accountability imposed on the Board of Trustees.

- 2011 – New classification for pension members (Tier 2) was enacted resulting in modifications to the pension formulas, classifications, and qualifications.
- 2015 – Public Act 99-8 was enacted provided that if an employer failed to transmit required contributions to a public pension fund, the fund may certify to the State Comptroller the amount due. The Comptroller must deduct and deposit into the fund the certified amounts from State payments to the employer.

The following is an overview of changes to Article 1 and Article 1A of the Illinois Pension Code enacted by the 100th General Assembly in years 2017 and 2018. Amendments and additions to the other Articles of the Illinois Pension Code are found in the summary page of each pension fund and retirement system. Public Acts encompassing Articles that are not Article 1 and Article 1A are also included in the summary page of the affected Article.

**P.A. 101-81 effective July 12, 2019** A general revisory act which combines multiple versions of sections that were amended by more than one Public Act, renumbers sections from various Acts to eliminate duplication, and corrects obsolete cross-references, technical errors and makes stylistic changes, reference section 5/1-162.

## **Amendments to The Administrative Code**

This section presents amendments and additions to Title 50 of the Illinois Administrative Code that were adopted during Fiscal Year 2017 and Fiscal Year 2018.

### **Amended under 43 Ill. Reg. 413, effective December 21, 2018 Part 4415.90 Penalties**

The amendment mandates that pension funds that are required to pay an annual compliance fee pursuant to Section 4415.20 will be subject to a penalty as set forth in Section 1A-113(c) of the Illinois Pension Code if payment is not made by the fiscal year end of June 30. May also be subject to a civil penalty.

### **Amended under 43 Ill. Reg. 417, effective December 21, 2018 Part 4435.70 Director’s Determination of Failure to Timely File**

Eliminates the unnecessary requirement of holding a hearing before a penalty can be assessed prior to assessing a penalty for the failure to pay its compliance fee and/or filing of the Annual Statement based on the prescribed date.

### **Amended under 43 Ill. Reg. 417, effective December 21, 2018 Part 4435.80 Hearings to Show Good and Sufficient Cause**

Eliminates the unnecessary requirement of holding a hearing with the clarification that pension funds are subject to penalties under Section 4435.50 or .70. A pension fund may request a hearing with the burden of proof placed on the fund, governmental unit, or elected or appointed officials.

RECOMMENDATION FROM THE DIVISION FOR LEGISLATIVE AND ADMINISTRATIVE  
CORRECTION

The Division's recommendations for legislative and administrative changes and corrections during the next biennial period is based on a need to amend several code sections for consistency across Article 3 and Article 4 and a reduction of overall costs. Section 1A-108 of the Illinois Pension Code specifically provides that the "report shall also include ... any specific recommendations for legislative and administrative corrections that the Division deems necessary. The report may embody general recommendations concerning desirable changes in any existing pension, annuity, or retirement laws designed to standardize and establish uniformity in their basic provisions and to bring about an improvement in the financial condition of the pension funds." (40 ILCS 5/1A-108). The recommendations are in no specific order, nor are they mutually exclusive. The recommendations are based on current practices and observations. These changes enhance procedural and enforcement powers, increase efficiencies and may reduce long-term accrued pension liability.

The Division's recommendations for the next biennial period are as follows:

- 1) **Audit Cycle:** Recommends an amendment to the audit cycle from the current cycle to a ten-year cycle with the inclusion of a risk-review examination process. The recommended risk-review process would entail periodic reviews focusing on high-risk compliance issues having a material impact on the pension funds. Risk-review may include ratio and trend analysis, risk factors such as, a lack of policy and procedures, board composition, liquidity shortfalls, investment shortfalls, funding shortfalls, large fluctuations in expenditures, and outliers in benefit awards. The recommendation will result in expanded efficiency within the Division's limited resources.
- 2) **Enforcement Powers:** Recommends the amendment of section 40 ILCS 5/1A-113(d) of the penalties provision to allow the Attorney General or all State's Attorneys to enforce the automatic monetary penalties for noncompliance, including the failure to file the annual statement. The Division currently has no judicial authority to enforce a penalty, having only the authority to enter an administrative order to impose a fine. The Division must then rely upon a fund to comply. Additionally, there is a recommendation for an administrative hearing fee, along with the repayment of departmental expenditure when a pension fund is deemed to be in noncompliance. The recommendation will reduce overall costs and increase efficiencies.
- 3) **Service Reentry:** Recommends amending the pension code to prevent re-entry in the same municipality as the pension fund. This would prevent a retired police officer or a firefighter from receiving pension payments while actively working in the same/similar role or function previously held as an active police officer or

firefighter. The recommendation will reduce future pension liability.

- 4) **Board Composition:** Recommends changes in board composition provisions for suburban and downstate funds with three or less participants. Funds in this category may not be able to comply with board management requirements due to a limited pool of participants. A fund with three or less participants should be given an option to reduce the board size to three trustees, to include one participant if the participant is unwilling or unable to serve on the board, it is recommended that the municipality be allowed to appoint a third trustee. The recommendation will result in greater governance within small pension funds.
- 5) **Article 3 Board Composition:** Recommends amending the statutory board composition provision in Article 3 for suburban and downstate police pension funds to add the requirement that the municipal treasurer serve as the treasurer of the police pension fund. This recommendation aligns with provisions in Article 4 for suburban and downstate firefighter pension funds. There is no regulatory language requiring the treasurer to review and approve the beneficiary calculations prior to the acceptance of the benefit amount by the pension fund board. The recommendation would allow for a formal review of the pension calculation, along with the corresponding documentation that is presented to the board of trustees.
- 6) **Consolidation:** Recommends that the investment assets of the suburban and downstate pension funds be consolidated on a municipal or statewide level, if economically feasible. The Division believes that, at minimum, this type of consolidation may: 1) increase investment returns and reduce investment expenditures incurred by individual pension funds 2) allows pension funds to pool investment assets potentially increasing return rates 3) allow for greater independence of the Board and investment professionals while reducing the redundancy of having multiple investment policies, consultants, and advisors 4) expands allowable investment options. The overall taxing, accounting authority, and benefit payment would remain with the municipality. The recommendation may result in increased return rates and expanded investment options with a reduction of cost as a result of an economy of scale and higher accountability.
- 7) **Board Trustee Duties:** Recommends the inclusion of the specific pension information within the pension funds' board minutes: all pension benefits approved should be formally listed in the minutes with the amounts, years of service, type of benefit and salary used for the calculation, the prior years' salary information, date of approval, and trustees' signatures. Additional recommendation to amend the statutory board duties to explicitly require a trustee to recuse themselves from voting on their pension/disability benefit, or a pension of a family member or when any other conflict of interest may be present. Additionally, if a trustee does not recuse themselves, the pension may be voided. The recommendations will result in greater efficiencies and accountability.
- 8) **Annual Beneficiary Review:** Recommends that Article 3 and Article 4 be amended to add a provision requiring the identification of deceased participants by all the

pension funds on an annual basis. This can be done by granting the pension funds the ability to access the records in the State vital records database at no cost to the pension fund. This recommendation will strengthen the integrity of the data and allow for faster turnaround time when a beneficiary passes away. Further, the recommendation is prudent given the Tier 2 pension benefit variance between a member and beneficiary. The recommendation will result in increased efficiencies and accountability.

- 9) **Mistakes in Benefits:** Recommends the expansion of the definition of “mistake” to account for a material error in the components in a pension calculation. Currently, a correction is only allowed if a mistake was a clerical or an administrative error at the time of retirement. The recommendation will result in a reduction in the pension liability.
- 10) **Financing:** Recommends the clarification of the funding contribution valuation report that must be used by the pension funds to reach the mandated 90% of the total actuarial liabilities. Pension funds may use different valuations annually, either a contractual actuarial valuation (municipality or fund) or the Division’s developed report. The recommendation will clarify the annual requirement and allow for better planning and accountability.
- 11) **Pension Code Modifications:** Recommends amending the Code to clarify definitions, expanding allowable investment options and to account for changes in a Tier 2 member’s pension. These changes include: amending the allowable investment options for an Article 3 and Article 4 pension fund to incorporate additional investment options as may be appropriate to maintain sufficient liquidity (accounting for six months of benefit payments and reasonable and necessary expenditures), modifying Article 4 reciprocity provisions, reviewing the disability benefit provisions and modifying the refund provisions.
- 12) **Dissolution/Inactive Pension Funds:** Recommends amending the dissolution section of the police and fire pension funds to allow municipalities/fire protection districts to discontinue the acceptance of new member applications in a pension fund when the inhabitants go below 5,000 based on the current census. The liabilities and pension obligations will remain for all current members/beneficiaries. The recommendation allows for a reduction in future liabilities, as no new members would be part of the fund.
- 13) **Minimal Population Requirement:** Recommends amending Article 3 and Article 4 minimal population requirements of a municipality or a fire protection district. Article 4 allows for the formation of a pension fund if there is just one full-time firefighter, regardless of the number of inhabitants. The formation of a pension fund should be increased to a minimum requirement of 30,000 inhabitants. Additionally, the code as written does not incorporate tax paying entities, which may be a more accurate tax base when considering long-term pension liability. The recommendation will reduce the number of future pension funds and the related pension liability.

## AGGREGATED FIVE-YEAR PROFILE REPORTS

The following presents statistical, financial, and actuarial summary data of all retirement systems and pension funds in the State of Illinois. The profile reports show the overall condition of the retirement systems' and pension funds' operations. The financial and statistical information presented was compiled from annual reports submitted to the Division by each fund or system as required by Section 1A-109 of the Illinois Pension Code. The retirement systems submitted actuarial data obtained from their independent actuaries. The actuarial data of the suburban and downstate funds was collected and prepared by the Division. This report does not include data from any report from actuaries employed by a municipality or a suburban and downstate pension fund.

All amounts presented in this section are as of the close of the most recently completed fiscal year ended 2018, as reported to the Division and as certified by the filing party. The Division is not able to independently verify the data filed. However, the data is reviewed for reasonableness prior to the Division's acceptance of the annual statement. The retirement systems and pension funds are required to be examined by an independent certified public accountant and to submit the audit report to the Division prior to the Division's acceptance of the annual statement. Additionally, in fiscal year 2016 and 2017, the retirement systems experienced a change in fund balance. Their adjustments are noted within the individual audited financial statements, and the reader is directed to review the changes.

The following 9 pension funds did not submit their 2018 annual statements in time for inclusion in the biennial report: Centreville Police Pension Fund (multiple years), Justice Firefighters Pension Fund, Justice Police Pension Fund, River Grove Police Pension Fund, Robbins Firefighters Pension Fund (multiple years), Robbins Police Pension Fund (multiple years), Streator Firefighters Pension Fund, Washington Park Firefighters Pension Fund (multiple years) and Willow Springs Firefighters Pension Fund . These funds were sent notices and orders. The summaries below are based on 651 annual statements for fiscal year 2017 and 647 annual statements in fiscal year 2018. Data will change over time as pension funds submit or modify their annual statement. Fiscal year 2016 through Fiscal year 2014 are considered complete.

The summaries are summarized based on the retirement systems and pension funds geographical area. The Division provides a disclaimer that the report is compiled from data reported in the fund's annual statement to the Department of Insurance under 40 ILCS 5/1A-109. It is recommended that for a complete understanding of the individual retirement system or pension funds the reader should review the statistical, financial, and actuarial data relating to the entities.

## OVERVIEW OF THE FIVE-YEAR PROFILE REPORT

The profile reports in Appendix A-1 show the statistical, financial, and actuarial data for the last five fiscal years of the retirement systems and pension funds in the State. There were 656 active pension funds as of the end of the fiscal year 2018, within the biennial period, of which 9 did not submit their information or 1.2 % of the funds. The profile reports show the overall financial condition and historical information of the retirement systems and pension funds operating for the benefit of public employees in the State of Illinois. The goal of these reports is to show the status of the individual retirement systems and pension funds from a historical perspective and the trends over the last five years. Please note that many municipalities hire their own independent actuary to perform the actuarial valuations. An independent actuary may choose different actuarial assumptions than those used by the Division's enrolled actuary, resulting in actuarial data that varies from the calculations produced by the Division.

The financial and statistical information presented was compiled from annual reports submitted to the Division by each retirement system and pension fund as required by Section 1A-109 of the Illinois Pension Code (40 ILCS 5/1A-109). The data is based strictly on the filed package submitted to the Division and as certified by the filing party. The actuarial data for the 15 retirement systems is reported as submitted, while the actuarial data for suburban and downstate funds was obtained from their annual statement filings and the valuations as calculated by the Division's enrolled actuary.

The "Accrued Actuarial Liability" is based on the market value of assets "smoothed" over five years as mandated by the pension code. The summary reports provide the trend over a five-year period. The data is represented as it was submitted to the Division. Simple averages were calculated for ease of understanding the detail. Each type of fund has an associated set of definitions that explain the data, providing detailed explanations and important clarifications. The Division encourages the reader to review the five-year profile report, in conjunction with the definitions. The data is pulled from P.A.S.S. based on the annual statements filed with the Division. The data is presented on a five-year basis. **LEGISLATIVE AMENDMENTS**

This section presents an overview of changes to Article 3 of the Illinois Pension Code enacted by the 100th General Assembly in years 2017 and 2018. Amendments and additions to the other Articles of the Illinois Pension Code are found in the summary page of each pension fund and retirement system. Amendments and additions in Article 1 and Article 1A are found in the section titled *Legislative Changes Impacting Public Retirement Systems and Pension Funds*. Public Acts encompassing Articles that are not Article 3 are also included in the summary page of the affected Article.

**Public Act 100-281, effective August 24, 2017:**

The Act amended Sections 3-109.1, 3-124.1, and 7-109 and added Section 3-109.4. It added a provision preventing certain police chiefs from electing to participate in the Illinois Municipal Retirement Fund unless that person became a participating employee in the Illinois Municipal Retirement Fund before January 1, 2019. The Act created a provision in which each municipality shall establish a defined contribution plan that aggregates police officer and employer contributions in individual accounts used for retirement. It allows members to participate in the defined contribution plan without accruing creditable service in the defined benefit plan. Police officers who are vested with more than 10 years of creditable service and enter active service in a different municipality may elect to participate in the defined contribution plan. They may also rescind their election to participate in the defined contribution plan and join the defined benefit plan. Police officers who first become members on or after January 1, 2019, may continue to receive retirement benefits while employed in another municipality, however, they may only participate in a defined contribution plan established by the municipality.

**Public Act 100-334, effective August 25, 2017:**

The Act amended Sections 2-156, 3-147, 4-138, 5-227, 6-221, 7-219, 8-251, 9-235, 10-109, 11-230, 12-191, 13-807, 14-149, 15-187, 16-199, 17-149.1, and 18-163. The Act added a provision preventing survivors of police officers who were convicted of any felony relating to or arising out or in connection with the service of the police officer. The Act made this provision applicable to participants entering active service subsequent to the effective date of this Act. The Act does not prohibit survivors who are vested prior to the effective date of this Act from collecting survivor benefits.

**Public Act 100-544, effective November 8, 2017:**

The Act amended Sections 4-108, 4-108.6, and 6-227 and added Section 3-110.12. The Act added a provision allowing certain Article 4 firefighters to transfer up to 6 years of creditable service time earned as an Article 3 police officer in the same municipality. Electing members must satisfy specific conditions and must transfer the time during the 6 months following the effective date of this Act.

**Public Act 100-863, effective August 14, 2018:**

### Tier 3 (plan type and benefit):

The Tier 3 plan is a hybrid plan that was created for members subject to the Tier 2 plan that are not coordinated with social security.

The Hybrid plan shall consist of a defined benefit component as well as a defined contribution component. The defined contribution component must attain qualified plan status and receive necessary approvals from the IRS prior to the enrollment of any members into the plan.

### Defined benefit component

A member shall be eligible to receive the defined benefit component of his or her hybrid plan upon achieving the normal retirement age under the Social Security Act (no earlier than age 67) and accruing 10 years of service credit. Members shall contribute 6.2% of compensation to the defined benefit component of the plan. The defined benefit plan shall consist of the following:

The base retirement annuity shall be calculated as laid out below:

$(\text{Benefit formula} \times \text{Years of Service}) \times \text{Final Average Monthly Compensation} = \text{Base monthly retirement pension}$

**Benefit formula** shall equal 1.25% for each year of service

**Final Average Monthly Compensation** shall be the average monthly compensation during the last 10 years of service. This amount shall be limited by the Social Security Wage base.

The base annuity will increase annually beginning on the first anniversary of the annuity start date and shall equal

½ of the increase to the Consumer Price Index-W with non-compounded interest.

Survivor's benefits shall equal 66.7% of the earned retirement annuity and increases to the benefit shall equal ½ of the increase to the Consumer Price Index-W with non-compounded interest.

## Defined contribution component

The defined contribution component shall consist of employee contributions, an employer match, and investment earnings derived from these contributions. Employee contributions shall total 4% of compensation. Employer contributions can vary by employee as determined by the employer but shall not be less than 2% of compensation and no greater than 6% of compensation. Administrative fees shall be deducted as a uniform percentage from each participating member's employee contributions

A variety of investment and distribution options associated with the defined contribution plan shall be provided. A member vests in the employer match as soon as the match is deposited into his or her account. Such plan shall allow for members who terminate service to roll over account balances into other qualified retirement plans. The defined contribution component must attain qualified plan status and receive necessary approvals from the IRS prior to the enrollment of any members into the plan.

It should be mentioned that the Tier 3 plan is not operational because the plan is currently not in compliance with the Internal Revenue Code. Legislation (SB 779, as amended by Senate Amendment #2) was introduced in the Fall of 2017 to increase the likelihood that such plan would comply, but the bill did not advance out of the House.

**LEGISLATIVE AMENDMENTS**

**Effective Fiscal Year 2017 Legislative amendments having an impact on the System:**

**Public Act 99-683** effective July 29, 2016: Provides that each retirement system must implement a procedure to identify deceased annuitants. The procedure must include the requirement that the system check for deceased annuitants at least once per month. The bill also requires that the systems shall have access to the Illinois Department of Public Health vital records.

**Effective Fiscal Year 2018 Legislative amendments having an impact on the System:**

**Public Act 100-0019** effective January 1, 2018 Adjusts the educational requirement from a specific bachelor's or advanced degree (criminal justice, psychology, etc.) to any bachelor's or advanced degree for certain employees of the Department of Juvenile Justice (DJJ) with job duties to either participate or assist in the rehabilitative and vocational training of delinquent youths, supervise the daily activities involving direct and continuing responsibility for the youth's security, welfare and development, or participate in the personal rehabilitation of delinquent youth by training, supervising, and assisting lower level personnel who perform these duties. Additionally, Public Act 100- 0019 amends the SERS article in the compiled statutes to mirror this change in the alternative formula requirements.

**Public Act 100-0023** effective July 6, 2017: Created a Hybrid Plan. Such plan will be available to members that first join the System on or after the implementation date and who are not coordinated with Social Security. In addition, those current Tier 2 members not coordinated with social security may irrevocably elect to participate in the Hybrid plan.

The Hybrid plan shall consist of a defined benefit component as well as a defined contribution component. New members eligible for the plan shall have the choice to elect to participate in this plan, or the Tier 2 plan, but must make the election within 30 days of becoming enrolled in the System. The defined contribution component must attain qualified plan status and receive necessary approvals from the IRS prior to the enrollment of any members into the plan.

Furthermore, PA 100-0023 requires that any changes in liabilities resulting from assumption modifications shall be smoothed over a 5-year period. Beginning in fiscal year 2018, State contribution rate changes due to changes in the actuarial assumptions will be phased-in over a five-year period. In addition, any actuarial assumption changes that impacted the State contribution rate in fiscal years 2014 through 2017 are to be smoothed over a five-year period applying only the portion of the five-year phase-in that is applicable to fiscal years on and after 2018.

**Public Act 100-0334** effective August 25, 2017: Provides that an eligible survivor of a member shall be ineligible for benefits if convicted of any felony relating to, arising out of, or in connection with the service of the member that earned such benefit. The intent of the law appears to only apply this provision to survivors of members that first enter service on or after the effective date of the bill, which is immediate.

**Public Act 100-0587** effective June 4, 2018: Creates an accelerated benefit payment program election for SERS members based on certain eligibility factors. Members who are Tier 1 and eligible for a retirement annuity but have never received one can elect to participate in the automatic annual increase (AAI) accelerated benefit upon termination of service. The member forfeits all rights to future 3% compounded automatic annual increases in favor of a 1.5% automatic annual increase (not compounded) that begins on January 1 of the later of their retirement anniversary or their sixty seventh birthday. Additionally, the member receives 70% of the actuarially determined present value of the difference in the two AAI programs.

Members (Tier 1 or 2) who are vested but inactive that have not yet received a retirement annuity can elect to participate in the vested inactive accelerated benefit program. The member electing this option forfeits all rights to future benefit payments but retains access to state retiree healthcare. Additionally, the member receives 60% of the actuarially determined present value of the retirement benefits that the member is entitled to at the date of the election.

Accelerated benefit payments will be funded by the issuance of bonds. The ability to participate in the accelerated benefit program expires June 30, 2021. STATE UNIVERSITIES RETIREMENT SYSTEM

**JUDICIAL ADMINISTRATIVE REVIEW COMMITTEE (JCAR) AMENDMENTS**

**EFFECTIVE FISCAL YEAR 2016**

**40 Ill. Reg 8437 (June 3, 2016): Employer Contributions for Employing Affected Annuitants.** Section 1600.275 of the Amendment implemented the addition of Section 15-139.5 of the Illinois Pension Code [40 ILCS 5/15-139.5], initially enacted under PA 97-968, effective August 16, 2012, and subsequently amended under PA 98-596, effective November 19, 2013, and PA 98-1144, effective June 1, 2015. After the enactment of PA 97-968, SURS held various working groups with employers to create efficient reporting and monitoring mechanisms for employed annuitants, an unprecedented endeavor in the retirement system's history. During these efforts, SURS was advised of the likelihood of legislation that would substantially change the substance of Section 15-139.5. Therefore, to avoid waste of system resources, SURS decided to delay rulemaking pending these changes. After the enactment of PA 98-596, SURS continued to work with employers to build online database systems that efficiently collected and disseminated annuitant status reporting for purposes of Section 15-139.5. PA 98-1144 amended Section 15-139.5 further to exclude annuitants receiving \$10,000 or less annually from the scope of "affected annuitant" status. Soon after the enactment of PA 98-1144, the SURS Board tentatively approved the substance of the Amendments in June 2015, and finally approved their filing for First Notice in September 2015. In the absence of rulemaking, SURS has enforced Section 15-139.5 through the terms of that provision along with the general authorizations under the Illinois Pension Code regarding employer reporting [40 ILCS 5/15-168] and the carrying of reasonable activities which are deemed necessary to accomplish the purposes of the System [40 ILCS 5/15-177]. No employer appeals concerning Section 15-139.5 have been permitted in the absence of rulemaking. Sections 1600.202 and 1600.203 of the Amendment make conforming amendments necessary to implement Section 1600.275 while rearranging some provisions for easier reading. Section 1600.510 of the Amendment provides a procedure for employer appeals of SURS staff decisions. Several provisions of the Illinois Pension Code require SURS to make decisions that affect employers in the administration of the system, including, but not limited to, informational reporting, determinations of pensionable earnings, determinations of service credit (contract dates, leaves of absence, part-time status, etc.), and employer contributions from trust, federal, or other funds. Under the 6% Rule [40 ILCS 5/15-156(g)], an employer may request a recalculation of the 6% bill while claiming certain exceptions. There is no statutory requirement that employers be provided a hearing to contest SURS staff decisions. Because staff decisions on employer matters are currently not appealable to the Executive Committee, the only recourse of an employer would be to seek Administrative Review in circuit court. To reduce the expense and delay of seeking resolution of employer matters in court, SURS proposes to permit internal reviews of employer matters. Because employers, as governmental bodies, are not subject to Due Process protections, SURS proposed a document review process, rather than a live-hearing process in order to conserve system resources and minimize administrative delays. Section 15-188 of the Illinois Pension Code [40 ILCS 5/15- 188] provides that all final administrative decisions (including employer-related decisions) of the SURS Board are subject to appeal under the Administrative Review Law. Section 1600.270 of the Amendment makes a conforming amendment implementing Section 1600.510 in the 6% Rule process.

**EFFECTIVE FISCAL YEAR 2018**

**40 Ill. Reg. 15353 (December 5, 2017):** The rulemaking amended Sections 1600.500 and 1600.720, adding a clarification to Section 1600.500 concerning staff argumentation and evidence submissions before the Claims Panel where the claimant has waived his or her appearance at the hearing and amended Section 1600.720 to provide for the electronic delivery of election materials and electronic balloting in trustee elections.

**40 Ill. Reg. 11606 (September 1, 2017):** This rulemaking added a SIMPLE IRA clarification to Section 1600.140, adds a vacation payment and disability benefit commencement Section and further clarifies Section 1600.605 to further define what documents SURS may accept as evidence of a Consent to Issuance of QILDRO.

**EFFECTIVE FISCAL YEAR 2019**

**41 Ill. Reg. 19078 (October 5, 2018):** The amendments to Sections 1600.205, 1600.270, and the new addition of Section 1600.271 are implemented legislative changes to Article 15 of the Illinois Pension Code (40 ILCS 5/15) made by PA 99-897, effective January 1, 2017, and PA 100-23, effective July 6, 2017, in addition to making minor stylistic corrections.

The retirement plan provides retirement, disability, and death benefits for teachers employed by Illinois public school districts outside Chicago in positions requiring licensure. Persons employed at certain state agencies and certain non-government entities are also members.

**Annuity/Pension:** Terms are used interchangeably relating to retirement benefits.

**Basic Rate of Annuity:** 2.2% for each year of service beginning July 1, 1998. Prior service can be upgraded to the 2.2% formula with a contribution. Members with service before July 1, 2005 [40 ILCS 5/16-133] receive the greater of the formula benefit or an actuarial calculation.

**COLA:** Cost of living annual pension increase. The term is often applied to automatic annual increases which are not tied to the cost of living and are not technically COLAs.

**Inactive participant:** Member who is not currently contributing to the system and has not taken a refund of prior contributions.

**Normal cost:** Percentage of the part of the actuarial present value of all future benefit payments and appropriate administrative expenses assigned to the current year under the actuarial valuation method used by the plan (excluding any amortization of the unfunded accrued liability). Total normal cost includes the member contribution employer normal cost excludes it.

**Single Sum Benefit:** A lump sum payment is available for individuals age 65 with fewer than 5 years of service. 1.67% of final average salary times years of service.

**Tier 2 member:** An individual who first became a participant on or after January 1, 2011.

**Total Employee Contribution Percentage:** 9.0% for the year ended June 30, 2016 and 9.0% thereafter. Components: retirement contributions 8.0% survivor 1% and automatic annual increase 0.5%.

**Upgrade Provision:** Beginning May 27, 1998, Tier I members can upgrade service earned under the graduated formula by making a specified optional contribution (1% of pay per year of service maximum contribution of 20%) and retire under the 2.2% formula. For members continuing to teach, every three full years worked under the new 2.2% formula reduces the number of years to be upgraded by one year. Other provisions apply.

## TEACHERS' RETIREMENT SYSTEM OF THE STATE OF ILLINOIS

**LEGISLATIVE AMENDMENTS****Public Acts Effective in Fiscal Year 2018**

**P.A. 100-0023, effective July 5, 2017** (FY 2018 Budget Implementation Act): Required TRS, SURS, and SERS to each establish a Tier 3/Optional Public Hybrid Plan for members not covered by Social Security. However, the plan has not been established by any of the systems because it requires a trailer (follow-up) bill to clarify its requirements and allow the systems to maintain their tax-qualified status.

**P.A. 100-0227, effective August 18, 2017:** Requires the school district report card which is compiled and released by the Illinois State Board of Education (ISBE) to include the total and per pupil normal cost amount the state contributes annually to TRS for the district's employees. TRS must report this information to ISBE during the month of October, because by statute, the school district report card must be released annually no later than October 31.

**P.A. 100-0334, effective August 25, 2017:** Provides that if a survivor is convicted of a felony that relates to the initial member's pensionable service, then the survivor forfeits his or her benefit. The legislation affects only new hires.

**P.A. 100-0340, effective August 25, 2017:** Establishes the TRS retirement contribution rate applicable to salaries paid with federal funds at the total employer normal cost.

**P.A. 100-0542, effective November 8, 2017:** Requires pension fund consultants to disclose total number of searches and the total number that included a minority firm. Additionally, the consultant must disclose the amounts awarded to a minority firm. This information is not restricted to the business of the Illinois pension fund.

**P.A. 100-0551, effective January 1, 2018:** Requires, among other things, that state pension funds divest from "expatriate corporations." Expatriate corporations are those that are "a foreign incorporated entity which is treated as an inverted domestic corporation under subsection (b) of Section 835 of the Homeland Security Act of 2002, 6

U.S.C. 395(b)." The Illinois Investment Policy Board determines which entities are on the list. There is one notable difference from former divestment attempts: this new act allows for "shareholder activism" instead of divestment at the Board's discretion.

**P.A. 100-0587, effective June 4, 2018** (FY 2019 Budget Implementation Act): Reduced the cap on salaries used in final average salary calculations from 6% to 3%. (However, the cap returned to 6% under P.A. 101-0010.) The act also included two voluntary programs that each sunset June 30, 2021. One program provides Tier I members with an "accelerated pension benefit payment" they can receive at retirement in exchange for receiving a lower and delayed noncompounded automatic increase compared to the current 3% compound automatic annual increase. The second program allows vested inactive members in either tier to receive a lump sum in lieu of receiving pension benefits. Under the automatic increase buyout, the member receives 70% of the difference in present values of the two annual increase streams. Under the inactive vested buyout, the member receives 60% of the present value of the future benefit stream. The state is authorized to sell up to \$1 billion in bonds to fund the programs no system assets are to be used to pay the buyouts.

**Public Acts Effective in Fiscal Year 2019**

**P.A. 100-0596, effective July 1, 2018:** Raised post-retirement work limits from 100 paid days or 500 paid hours to 120 paid days or 600 paid hours to address the teacher shortage problem. Retired members can teach up to these limits without affecting their benefits. The higher limits are in effect through June 30, 2020.

**P.A. 100-0743, effective August 10, 2018:** Extends the sunset provision for retired teachers returning to teaching in subject shortage areas from June 30, 2013 to June 30, 2019. (Later extended to 2021 by P.A. 101-0049.)

**P.A. 100-0769, effective August 10, 2018:** Directs TRS to offer an optional DC plan for all members of Tiers 1 and 2. The act allows TRS to offer a tax-qualified retirement savings account that can receive optional employee and employer contributions. TRS will use a third-party provider, and there will be no cost to the system as all costs are paid by participant contributions.

**P.A. 100-0813, effective August 13, 2018:** Requires ISBE to establish a program allowing school districts to utilize third party providers to provide substitute teachers by January 1, 2019. It also establishes some constraints on the use of substitute teachers provided by third party providers (for example, cannot use substitute teachers to reduce the number of full-time employees). The legislation is clear that substitute teachers hired from third party providers do not qualify to participate in TRS.

**P.A. 100-0902, effective August 17, 2018:** Sets a policy that executive staff at the pension funds should reflect the racial and ethnic makeup of the membership. The legislation originally only applied to SURS but was amended to include TRS and other retirement systems.

**P.A. 100-1040, effective August 23, 2018:** Amends the Local Records Act to require that if a school district, community college, or unit of local government enters into a severance agreement with an employee or contractor due to complaints of sexual harassment, specified details of the severance agreement must be posted on the public entity's website within 72 hours of the agreement's approval.

**P.A. 101-0010, effective June 5, 2019** (FY 2020 Budget Implementation Act): Returns the 3% employer cost threshold applicable to a member's final average salary calculation to the pre-P.A. 100-0587 level of 6%. The act also extends the expiration dates for the Accelerated Annual Increase and Accelerated Pension Benefit Buyout Programs from June 30, 2021 to June 30, 2024. There has been no corresponding increase bonding authority provided to fund these two programs, however.

#### **Public Acts Effective in Fiscal Year 2020**

**P.A. 101-0049, effective July 12, 2019:** Extends the "retired return to work" program for TRS retirees from June 30, 2019 to June 30, 2021. The legislation allows school districts to hire annuitants to fill subject shortage teaching positions without the annuitants forfeiting their benefits for exceeding the retired return to work limitations in the Pension Code.

An adjustment may be necessary for various reasons such as, but not limited to, corrections of ending balance in the prior year filing, the

Due to limited length and formatting of the reports, the amount of the adjustment, where applicable, had been omitted.

**IMPORTANT:** The information presented in the profile reports is compiled from the data reported by the retirement systems and pension funds in their annual statement filings. The actuarial information for the pension funds is compiled from the actuarial valuation reports of the pension funds as calculated by the Division's enrolled actuary.
