Illinois Department of Insurance

2015

Cost Containment Annual Report to the General Assembly

Bruce Rauner
Governor

Anne Melissa Dowling
Acting Director

Illinois Department of Insurance

BRUCE RAUNER
Governor

ANNE MELISSA DOWLING
Acting Director

August 2015

To the Honorable Members of the General Assembly:

The Illinois Insurance Cost Containment Act requires the Director of Insurance to submit an annual report to the General Assembly containing an analysis of portions of the insurance market in Illinois. The report must contain a recommendation of the most appropriate and comprehensive cost containment system for the state (Article XLII, 215 ILCS 5/1202d).

In accordance with Section 1202 of the Illinois Insurance Code, [215 ILCS 5/1202], I am pleased to submit the Annual Report to the General Assembly on Insurance Cost Containment for 2015. It contains significant information from a national and Illinois perspective regarding the current conditions of the property and casualty insurance industry.

Sincerely,

A handwritten signature in black ink, appearing to read "Anne Dowling".

Anne Melissa Dowling
Acting Director of Insurance

Overview

This report analyzes the Illinois insurance market based on companies licensed to conduct business in the State. It is important to note that residual market and non-licensed companies are discussed separately in Section 3.

Section 1: OVERALL PROPERTY & CASUALTY INDUSTRY SUMMARY

This section provides and compares details of the Illinois property/casualty marketplace to countrywide data. It also provides a breakdown of all property/casualty premiums written on a regional basis and by significant line of business within Illinois.

Section 2: INDIVIDUAL LINE OF COVERAGE ANALYSIS

This section provides a detailed review of each of the following areas of insurance within the state of Illinois:

- Homeowners'
- Private Passenger Auto Liability
- Private Passenger Auto Physical Damage
- Commercial Auto Liability
- Medical Malpractice
- Other Liability
- Workers' Compensation

One aspect of each line of business monitored by the Department is market concentration. The Herfindahl/Hirschmann Index or (HHI) is a measure of the size of companies and is widely accepted as an accurate indicator of the amount of competition among individual companies in any given marketplace. The HHI is calculated by the summation of the squares of each company's individual market share. Generally, an HHI of 1800 or above is an indication that the given market may be highly concentrated and may possibly reflect anti-competitive characteristics.

Section 2 contains a historical graph of the (HHI) for each of the lines of business indicated above. For all of the lines studied, only the medical malpractice line continues to be considered highly concentrated in Illinois. This situation is not new and continues to be monitored by the Department.

Section 3: RESIDUAL MARKET MECHANISMS

Residual Market Mechanisms are established to provide specific insurance coverages to Illinois consumers who are unable to buy coverage in the open or voluntary markets. Coverages available to Illinois consumers through residual markets include property coverage, automobile coverage, and workers' compensation coverage.

The residual markets (FAIR Plan, Auto Plan, and Workers' Compensation Assigned Risk Pool) all have very small shares of the market which indicates healthy competition. The workers' compensation assigned risk market continues to be the largest residual market; representing 5.1 percent of the overall workers' compensation market.

In addition to residual market mechanisms, Section 3 details recent activities of the surplus lines market. Illinois consumers unable to obtain coverage in either the voluntary market or the residual market mechanisms may be able to obtain coverage in the surplus lines market. The report reflects nothing of concern with the surplus lines market mechanisms. However, the Department has little regulatory control regarding coverage placed in the surplus lines market.

Section 4: OVERALL MARKETPLACE CONDITIONS

Lastly, the report identifies and examines several financial principles that are generally accepted as measurements of market reliability and profitability. The Department will continue to monitor all available data related to the Property & Casualty insurance industry to encourage that a healthy, competitive, and reliable insurance market remains available for all Illinois consumers.

SECTION 1: OVERALL PROPERTY & CASUALTY INDUSTRY SUMMARY

The following table provides a breakdown of total direct written premium and incurred losses for the property/casualty industry by state for the past 5 years.

Direct written premium in Illinois totaled \$21.9 billion in 2014, representing 5.0 percent of the total written premium countrywide. Additionally, Illinois continues to rank 5th of all states based on direct written premium. Illinois continues to maintain this ranking as well as a loss ratio comparable or lower than other states in the top 20 states as reflected below. It should also be noted the Illinois loss ratio has been reduced each year since 2012. From 2012 to 2013, the ratio dropped 7.4 points; and from 2013 to 2014, it dropped 3.1 points for total reduction of 10.5 points in the two year period.

* Direct Pure Loss Ratio is calculated by dividing direct losses incurred by direct earned premium.

Source: NAIC State Data Network; aggregate Schedule T for all property/casualty insurers.

The following map identifies the percentage of total written premium and loss ratio for the property/casualty industry in ten regions of the United States during 2014 as well as the 5-year average.

Distribution of Direct Written Premium & Loss Ratios by Region

It should be noted that 2014 direct loss ratios in all regions exhibited lower than past “5 year average loss ratios”. Tornadoic and severe weather continue to greatly affect loss ratios in the central plains.

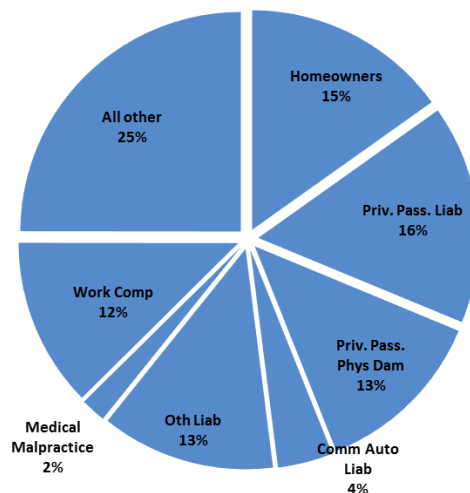

2014	Pacific	Mountain	North west Central	Southwest Central	Northeast Central	Southeast Central	Mid Atlantic	South Atlantic	New England	Other*	Total All Regions
% Total DPW	14.6%	6.8%	8.5%	9.9%	15.3%	5.2%	14.3%	19.1%	4.6%	1.0%	100.0%

*Other includes Puerto Rico and the U.S. Virgin Islands, Canada, American Samoa, Guam and N. Mariana Islands

Percent of All Property & Casualty Premiums Written in Illinois by Line (2014)

The following graph reflects the distribution of all Illinois property/casualty insurance premiums written during 2014. Personal lines of insurance include Homeowners’, private passenger automobile liability, and private passenger automobile physical damage coverage. Combined, these coverages make up approximately 44 percent of the overall property/casualty insurance written in the state of Illinois. The amount of written premium by line of insurance in 2014 remains very consistent with previous years.

NAIC State Data Network, 2014 Illinois State Page Exhibit

SECTION 2: INDIVIDUAL LINE OF COVERAGE ANALYSIS

HOMEOWNERS'

The following table compares Homeowners' insurance written in Illinois to the countrywide market. Written premium in Illinois continues to grow. In 2014, total written premiums for Homeowners' coverage written in Illinois rose by 4.7 percent from 2013. Nationally, total written premium for all Homeowners' coverage rose by 9.2 percent during the same period.

Homeowners' Underwriting Results (2014)

Homeowners' (\$000 omitted)	Illinois	Countrywide
Direct written premiums	3,309,001	62,247,681
Direct earned premiums	3,240,636	60,897,884
Expenses (% premium)		
Incurring losses	73.5%	52.5%
Def. & cost cont. exp. Incurred	1.1%	1.3%
Comm./brokerage	12.8%	12.5%
Taxes, licenses & fees	1.2%	2.5%

NAIC State Data Network, 2014 Illinois State Page Exhibit

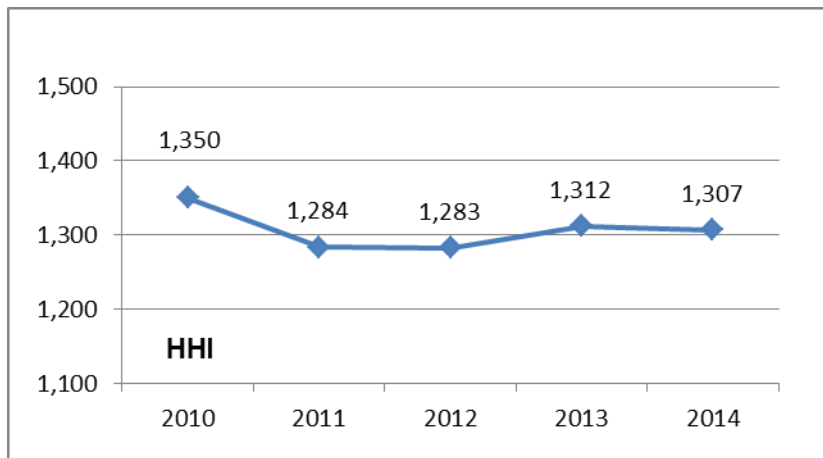

The following chart provides a comparison of incurred losses for Homeowners' insurance over the past 5 years. As indicated below, the loss ratio for both the Illinois and countrywide markets experienced a minor increase during 2014. The market in Illinois experienced an increase in losses of 2.9 percent compared to an increase of 4.3 percent countrywide. Tornadoic and severe weather in recent years in Illinois greatly contributed to the widening gap of loss ratios between Illinois and countrywide.

Homeowners' Losses as a Percent of Earned Premiums (2010 – 2014)

The following graph reflects the HHI for Illinois Homeowners’ insurance from 2010 through 2014. The Herfindahl/Hirschmann Index or (HHI) is a measure of the size of companies and is widely accepted as an accurate indicator of the amount of competition among individual companies in any given marketplace. Generally, an HHI of 1800 or above is an indication the given market may be highly concentrated and may be approaching anti-competitive behavior. As the chart shows, the Homeowners’ insurance market available to Illinois consumers continues to exhibit a healthy, stable level of competition for Illinois consumers.

Illinois Homeowners’ Insurance Market Concentration

The following table identifies the top ten writers of Homeowners’ insurance in Illinois based on written premium in 2013 and 2014. In summary, the ten companies identified wrote almost 2.2 billion dollars in written premium and combined for a total of 66 percent of the total Illinois market share in 2014.

In addition to statewide data, the Department collects Homeowners' data based on the geographical location of the insured pursuant to Title 50 Illinois Administrative Code Part 4203 (Part 4203) as authorized by the Illinois Insurance Cost Containment Act, 215 ILCS 5/1200 *et seq.* This data allows the Department to identify and compare the 2013 *Statewide Market Share* to *City of Chicago* and *Remainder of State* market share for each company. However, due to the statutory requirement associated with finalizing this report, the most recent data year available at the time of publishing was 2013.

<i>Company</i>	<i>2013 Statewide Market Share</i>	<i>City of Chicago</i>	<i>Remainder of State</i>
State Farm Fire & Cas Co	33.56%	37.46%	31.83%
Country Mut Ins Co	8.56%	1.79%	9.79%
Allstate Ind Co	4.91%	9.33%	4.50%
American Family Mut Ins Co	4.61%	4.90%	4.32%
Farmers Ins Exch	3.58%	3.23%	3.29%

Allstate Prop & Cas Ins Co	1.85%	2.27%	1.93%
Travelers Home & Marine Ins Co	1.79%	2.06%	1.82%

The following table summarizes the amount of written premium paid by Illinois Homeowners' during 2013 for each of the coverage types identified on this page.

Homeowners' Insurance is generally purchased in one of several standard coverage types. The coverage types acknowledged as industry standards include HO-1, HO-2, HO-3, HO-4, HO-5, HO-6, & HO-8

Basic Form (HO-1) – *The most basic coverage type providing coverage against 11 specific factors or perils: fire, lightning, smoke, vandalism, theft, ice, snow, windstorm, hail, riot, and volcano eruption. The popularity of this policy has diminished over the years due to the policies extensive coverage gaps.*

Broad Form (HO-2) – *HO-2 policy forms are also considered a basic coverage form but with a wider scope of coverage than the HO-1. Coverage under an HO-2 policy is limited to 17 perils specifically listed in the policy.*

Special Form (HO-3) - *Offers property and liability coverage for the dwelling, other structures, and loss of use of the dwelling and other structures for all perils specifically listed in the policy (e.g., fire, lightning, windstorm and hail, falling objects, etc.). Personal property is also covered for perils listed in the policy. HO-3 covers more perils than an HO-2 policy.*

Tenants Form (HO-4) - *Provides coverage for a renter's personal property, liability, and additional living expenses.*

Comprehensive Form (HO-5) - *Covers your home and personal property for everything that is not specifically excluded in your policy. This type of policy provides the broadest coverage available but is not offered by all insurers and is usually more expensive. Personal property coverage under an HO-5 is generally broader than an HO-3 policy.*

Condominium Form (HO-6) - *Covers a condominium owner's personal property and any additions and alterations made to the inside of the owner's unit. Condominium owners can also buy endorsements to protect property and for liability associated with their shares in the condominium association's common ownership.*

Modified Coverage Form (HO-8) - *Provides coverage when an older home's replacement cost far exceeds its market value. This form allows the policyholder to carry lower limits of insurance rather than try to maintain 80% of replacement cost. The HO-8 policy provides varying methods of loss payment depending on whether the damaged or destroyed building is repaired or replaced.*

Type of Coverage	2013 Illinois Premium	Market Share
HO-1	3,089,081	0.10%
HO-2	124,256,474	4.15%
HO-3	2,181,702,984	72.79%
HO-4	113,800,008	3.80%
HO-5	409,728,553	13.67%
HO-6	150,633,343	5.03%
HO-8	14,119,153	0.47%
<i>Total</i>	<i>2,997,329,596</i>	<i>100.00%</i>

PRIVATE PASSENGER AUTOMOBILE LIABILITY

The following table compares underwriting results for private passenger auto liability insurance written in Illinois with that written countrywide during 2014. The amount of premium written in Illinois and countrywide both showed an increase over 8 percent. Specifically, Illinois written premium increased approximately 270 million dollars, and countrywide premium increased over 6.3 billion dollars from 2013.

Private Passenger Automobile Liability Underwriting Results (2014)

PPA Liability (\$000 omitted)	Illinois	Countrywide
Direct written premiums	3,530,468	78,416,950
Direct earned premiums	3,492,266	77,409,571
Expenses (% premium)		
Incurred losses	63.3%	66.3%
Def. & cost cont. exp. Incurred	3.7%	3.4%
Comm./brokerage	10.3%	8.0%
Taxes, licenses & fees	1.3%	2.3%

NAIC State Data Network, 2014 Illinois State Page Exhibit

As reflected in the following chart, the loss ratios for private passenger automobile liability insurance in both Illinois and countrywide remained virtually unchanged in 2014.

Private Passenger Automobile Liability Losses as a percent of Earned Premiums (2010 – 2014)

As previously mentioned, an HHI of 1800 or above can be an indication of a highly concentrated and possibly anti-competitive market. As reflected below, consumers of private passenger automobile liability insurance in Illinois continue to enjoy a stable, highly competitive market.

**Illinois Private Passenger Auto Liability
Insurance Market Concentration**

The following table identifies the top ten writers of private passenger automobile liability insurance in Illinois based on written premium in 2014. In summary, the ten companies identified wrote over 2.1 billion dollars in premium and combined for a total of 61 percent of the total Illinois market share in 2014.

In addition to statewide data, the Department collects private passenger auto liability insurance data based on the geographical location of the insured. This data allows the Department to identify and compare the 2013 *Statewide Market Share* to *City of Chicago* and *Remainder of State* market share for each company. However, due to the statutory requirement associated with finalizing this report, the most recent data year available at the time of publishing was 2013.

<i>Company</i>	<i>2013 Statewide Market Share</i>	<i>City of Chicago</i>	<i>Remainder of State</i>
State Farm Mut Auto Ins Co	30.31%	32.68%	29.54%
Allstate Fire & Cas Ins Co	5.58%	7.59%	5.17%
Illinois Farmers Ins Co	4.26%	3.62%	4.55%
Country Pref Ins Co	4.16%	0.57%	4.95%
American Family Mut Ins Co	4.13%	3.83%	4.42%
Geico Cas Co	3.35%	3.41%	2.44%

PRIVATE PASSENGER AUTOMOBILE PHYSICAL DAMAGE

The following table compares underwriting results for private passenger physical damage insurance written in Illinois to statistics reflecting the same market countrywide. The physical damage market in Illinois experienced a significant increase of 12.2 percent in written premium during 2014, while the market experienced a 17.2 percent increase on a countrywide basis.

Private Passenger Automobile Physical Damage Underwriting Results (2014)

PPA PD(\$000 omitted)	Illinois	Countrywide
Direct written premiums	2,779,826	58,733,118
Direct earned premiums	2,726,309	57,570,230
Expenses (% premium)		
Incurred losses	64.3%	64.7%
Def. & cost cont. exp. Incurred	0.2%	0.3%
Comm./brokerage	10.0%	8.1%
Taxes, licenses & fees	1.3%	2.3%

NAIC State Data Network, 2014 Illinois State Page Exhibit

As reflected in the graph below, the private passenger physical damage loss ratio experienced a mild increase of approximately 2 percent both in Illinois and countrywide during 2014.

Private Passenger Automobile Physical Damage Losses as a percent of Earned Premiums (2010 – 2014)

As private passenger liability insurance and private passenger physical damage are closely associated and generally marketed jointly, the market concentration of the two lines of insurance should be closely related. As reflected in the following chart, Department research continues to indicate Illinois consumers are experiencing a healthy and competitive automobile physical damage market.

**Illinois Private Passenger Auto Physical Damage
Insurance Market Concentration**

The following table identifies the top ten writers of private passenger physical damage insurance in Illinois based on written premium in 2014. In summary, the ten companies identified wrote a total of over 1.7 billion dollars in premium and combined for a total of 62 percent of the total Illinois market in 2014.

In addition to statewide data, the Department also collects private passenger auto physical damage insurance data pursuant to Title 50 Illinois Administrative Code Part 4203 as authorized by the Illinois Insurance Cost Containment Act, 215 ILCS 5/1200 *et seq.* This data allows the Department to identify and compare the 2013 *Statewide Market Share* to *City of Chicago* and *Remainder of State* market share for each company. However, due to the statutory requirement associated with finalizing this report, the most recent data year available at the time of publishing was 2013.

<i>Company</i>	<i>2013 Statewide Market Share</i>	<i>City of Chicago</i>	<i>Remainder of State</i>

COMMERCIAL AUTOMOBILE LIABILITY

The following table compares underwriting results for commercial automobile liability insurance written in Illinois with that written countrywide during 2014. The commercial automobile markets experienced an increase in both Illinois and countrywide; by 19.9 percent and by 13.5 percent, respectively.

Commercial Auto Liability Underwriting Results (2014)

Comm. Auto Liab. (\$000 omitted)	Illinois	Countrywide
Direct written premiums	881,604	17,427,392
Direct earned premiums	841,936	16,867,424
Expenses (% premium)		
Incurred losses	55.9%	64.4%
Def. & cost cont. exp. Incurred	7.4%	6.9%
Comm./brokerage	14.5%	14.7%
Taxes, licenses & fees	1.9%	2.7%

NAIC State Data Network, 2014 Illinois State Page Exhibit

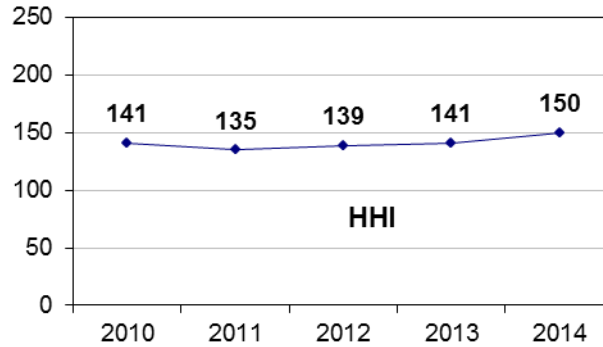

Similar to the loss ratio increases seen in private passenger automobile liability and physical damage coverage, the commercial auto liability markets experienced a slight loss ratio increase of 1.4 percent countrywide. However, loss ratio for the Illinois market experienced a significant decrease of 6.4 percent during the same period.

Commercial Auto Liability Losses as a Percent of Earned Premiums

As reflected in the following graph, the very low and stable HHI for the Illinois commercial automobile liability market continues to confirm a competitive market remains available to Illinois consumers. Based on these results, the system for cost containment appears to be appropriate for Illinois consumers in this market.

**Illinois Commercial Auto Liability Insurance
Market Concentration**

The following table identifies the top ten writers of commercial automobile liability insurance in Illinois based on written premium in 2014. In summary, the ten companies identified wrote a total of over 266 million dollars in premium and combined for a total of 30.3 percent of the total Illinois market share in 2014.

MEDICAL MALPRACTICE LIABILITY

The following table compares underwriting results for medical malpractice liability coverage written in Illinois with that written countrywide during 2014. The reduction in written premium within the medical malpractice market over the last several years continued countrywide in 2014. Nationally, the reduction was 191.6 million or approximately 4.7 percent decrease from 2013. However, the market in Illinois experienced a slight increase in written premium of 11.1 million dollars or 2.8 percent compared to 2013.

Medical Malpractice Liability Underwriting Results (2014)

Med Mal Liability (\$000 omitted)	Illinois	Country-wide
Direct written premiums	401,864	3,847,601
Direct earned premiums	416,512	3,917,226
Expenses (% premium)		
Incurred losses	24.7%	32.0%
Def. & cost cont. exp. incurred	26.7%	21.9%
Comm./brokerage	9.3%	10.2%
Taxes, licenses & fees	2.0%	2.1%

NAIC State Data Network, 2014 Illinois State Page Exhibit

As indicated below, the loss ratio for the medical malpractice market has increased significantly in Illinois. Although a large increase was experienced in 2014, the loss ratio in Illinois remains consistent with prior years and remains lower than the national average.

Medical Malpractice Liability Losses as a Percent of Earned Premiums (2010 – 2014)

The following graph highlights the market concentration for medical malpractice carriers in Illinois between 2010 and 2014. Consistent with most states, the largest writer of medical malpractice insurance in Illinois remains a physician-affiliated company. The largest writer in Illinois, ISMIE Mutual Insurance Company, wrote nearly 55 percent of the medical malpractice coverage in 2014. The second largest medical malpractice insurer, by direct written premium, was the Doctors Company, which wrote 6.9 percent of the Illinois market. Although the decrease of HHI in 2014 is encouraging, the medical malpractice market in Illinois remains highly concentrated.

Illinois Medical Malpractice Liability Insurance Market Concentration

The following table identifies the top ten writers of medical malpractice insurance in Illinois based on written premium during 2014. In summary, the ten companies identified wrote a total of approximately 350 million dollars in premium and combined for 87 percent of market share in Illinois for 2014.

OTHER LIABILITY

The following table compares underwriting results for other liability written in Illinois with that written countrywide during 2014. Written premiums for other liability coverage in both Illinois and countrywide experienced a significant increase during 2014. Specifically, written premium in Illinois increased 13.3 percent, or 129 million dollars, while countrywide written premium increased 9.8 percent, or 2.1 billion dollars, from 2013.

Other Liability Underwriting Results (2014)

Other Liability (\$000 omitted)	Illinois	Country-wide
Direct written premiums	2,788,319	42,491,428
Direct earned premiums	2,608,558	41,046,748
Expenses (% premium)		
Incurring losses	40.2%	51.7%
Def. & cost cont. exp. Incurred	6.7%	9.8%
Comm./brokerage	9.3%	12.7%
Taxes, licenses & fees	1.6%	2.4%

NAIC State Data Network, 2014 Illinois State Page Exhibit

As illustrated in the following chart, the loss ratio for other liability insurance experienced minimal changes both in Illinois and countrywide.

Other Liability Losses as a Percent of Earned Premiums

As with all other lines addressed in this report, the Department has determined the HHI for the other liability market available to consumers in Illinois. The following graph confirms the market continues to be very competitive and the current market regulation system related to this line of insurance appear to remain appropriate for consumers in Illinois.

**Illinois Other Liability Insurance
Market Concentration**

The following table identifies the top ten writers of other liability insurance in Illinois based on written premium in 2014. In summary, the ten companies listed below wrote a total of approximately 1.3 billion dollars in other liability premium and combined for a total of 47 percent of the total market share in Illinois for 2014.

WORKERS' COMPENSATION INSURANCE

The following table compares underwriting results for workers' compensation coverage written in Illinois with that written countrywide during 2014. The amount of premium written for workers' compensation insurance showed a large increase both within Illinois and countrywide. Written premiums in Illinois increased by 252 million, or a 10.0 percent from 2013. Written premium countrywide increased by over 6 billion or 18.1 percent from 2013.

Workers' Compensation Insurance Underwriting Results (2014)

Workers' Comp(\$000 omitted)	Illinois	Countrywide
Direct written premiums	2,715,322	40,898,505
Direct earned premiums	2,696,690	40,036,197
Expenses (% premium)		
Incurring losses	61.4%	59.1%
Def. & cost cont. exp. Incurred	7.3%	7.8%
Comm./brokerage	7.7%	8.2%
Taxes, licenses & fees	2.1%	3.2%

NAIC State Data Network, 2014 Illinois State Page Exhibit

As illustrated below, the loss ratio related to workers' compensation activity remained virtually unchanged. Countrywide, the loss ratio decreased mildly by 4.1 percent. Within Illinois, the loss ratio experienced a slight increase of 1.7 percent.

Workers' Compensation Insurance Losses as a Percent of Earned Premiums

As with all other lines addressed in this report, the Department has determined the HHI for the workers' compensation market available to consumers in Illinois. Based on available data, it appears the Illinois workers' compensation market continues to contain sufficient insurers to maintain a competitive market for employers in Illinois.

Illinois Workers' Compensation Insurance Market Concentration

The following table identifies the top ten writers of workers' compensation insurance in Illinois based on written premium in 2014. In summary, the ten companies identified wrote a total of approximately 634 million dollars in premium and combined for a total of 23.3 percent of the total workers' compensation market in Illinois for 2014.

SECTION 3: RESIDUAL MARKET MECHANISMS

States establish residual market mechanisms to provide coverage for consumers who are unable to buy coverage in the voluntary market. Residual market mechanisms in Illinois provide essential insurance coverage for the hard-to-place risk at rate levels approved by the Department. Illinois has residual market mechanisms for three lines of insurance: property, automobile, and workers' compensation.

PROPERTY

The Illinois FAIR Plan Association (FAIR Plan)

Fire and Homeowners' insurance may be placed directly through the Illinois FAIR Plan. Both personal and commercial insurance coverage is available to consumers. Insurance companies share in the FAIR Plan's profits and losses in proportion to their voluntary market shares.

In Illinois, property insurance is widely available in the voluntary marketplace and only a very small percentage of consumers obtain coverage through the FAIR Plan. In addition, consumers in Illinois are not at a coverage disadvantage when they buy insurance from the FAIR Plan, as is the case in many other states. In other states, residual market programs typically only offer dwelling fire or basic Homeowners' policies. Illinois has one of the most progressive plans in the nation. Through the FAIR Plan, consumers in Illinois can buy virtually the same coverages that are available in the voluntary marketplace, including guaranteed replacement cost, sewer back-up, earthquake, and building ordinance and law endorsements.

The following table summarizes the amount of dwelling and homeowner premium written by the FAIR Plan in Illinois from 2010 through 2014. As reflected in the data, the consistently low market share reflects a very healthy and competitive primary insurance market.

Written Premiums for Illinois FAIR Plan

(2010 – 2014)

	Amount of Written Premiums	As % of Total Written Premiums
2010	\$5,542,885	0.20%
2011	\$6,194,487	0.22%
2012	\$6,626,297	0.22%
2013	\$7,131,968	0.23%
2014	\$7,343,549	0.22%

Source: Premium amounts provided by Illinois FAIR Plan

AUTOMOBILE

The Illinois Automobile Insurance Plan (Auto Plan)

Private passenger automobile risks are assigned to automobile insurers on a rotational basis in proportion to their share of the voluntary market. Assignments stay with the company and are not shared with other insurers. Commercial automobile risks are placed through servicing companies. Losses are divided among the voluntary writers of commercial automobile insurance in proportion to their share of the voluntary business.

The following table identifies the annual market share from 2009 through 2012 (latest data year available) for the Illinois Automobile Insurance Plan compared to countrywide data. The percent of written car-years is derived by dividing the number of written car-years insured through the residual market by the total number of written car-years insured through the voluntary market.

As indicated by the data, a comparison of the market share in Illinois to the countrywide ratio reinforces the fact that the voluntary auto insurance market in Illinois is extremely effective.

Percent of Automobiles in the Illinois Assigned Risk Plan and the United States Composite Automobile Residual Market

	2009	2010	2011	2012
Illinois	.01%	.01%	.01%	.007%
Countrywide	.87%	.94%	.95%	.91%

Source: AIPSO Facts 2014/2015 (based on liability car-years)

WORKERS' COMPENSATION

The Illinois Workers' Compensation Assigned Risk Pool (Pool)

Several insurers act as servicing carriers for the Illinois Workers' Compensation Assigned Risk Pool. Losses are divided among the voluntary writers of workers' compensation in proportion to their shares of the voluntary business.

The following table highlights the percent of workers' compensation premiums written through the Pool between 2011 and 2014. As reflected below, based on premiums written through the Pool, the workers' compensation market in Illinois continues to remain competitive.

Percent of Illinois Workers' Compensation Written Through the Pool (2010 – 2014)

	2011	2012*	2013*	2014
Percent of Total	2.7%	4.3%	5.3%	5.1%

Source: National Council on Compensation Insurance (NCCI)

All insurers who write workers' compensation insurance are assessed a fee to fund the assigned risk plan. The Take-Out Program allows each insurer who removes an employer insured through the Pool to be eligible for a credit against their assessed fee.

The following table compares total credits between 2011 and 2014. The table indicates the total number of policies approved is diminishing in recent years, in contrast with an increase in approved credit amount. This could be the result of larger risks being removed. As indicated by these findings, the workers' compensation market continues to remain competitive at this time.

Illinois Take-Out Credit Results (2010 – 2014)

Year	Total Number of Policies Approved	Approved Credit
2011	3,777	\$17.0 Millions
2012	3,210	\$16.6 Millions
2013	2,564	\$20 Millions
2014	2,527	\$31 Millions

SURPLUS LINES ASSOCIATION

Insurance placed in the surplus lines market is written by a non-admitted (unlicensed) insurer through a licensed surplus lines producer. The licensed producer must exercise due diligence in protecting the insured since the Department has little jurisdiction over unlicensed companies and the Illinois Insurance Guaranty Fund provides no protection for the consumer. The surplus lines market relies on the producer's assessment of the company's financial stability and standards of management.

The following table outlines the number of policies written in Illinois from 2010 through 2014 by surplus lines producers for Homeowners', private passenger auto liability and physical damage, commercial auto liability, medical malpractice, and other liability coverage. The dramatic decrease in policies written in private passenger auto liability and physical damage surplus lines market beginning 2012 can be linked to a discontinued ancillary liability and property auto coverage program.

As indicated previously, the Department has little regulatory authority over this market. The ability to determine the competitiveness and health of the surplus lines market continues to be difficult to assess by the Department.

**Surplus Lines - Number of Primary and Excess Policies Written
in Illinois (2010 – 2014)**

Line of Business	2010 Illinois Policy Count	2011 Illinois Policy Count	2012 Illinois Policy Count	2013 Illinois Policy Count	2014 Illinois Policy Count
Homeowners'	1,049	2,077	2,833	3,653	3,897
PPA Liability	19,353	17,991	178	34	15
PPA Physical Damage	4,491	3,007	1,736	2,157	1,739
Commercial Auto Liability	277	278	240	294	324
Medical Professional Liability	1,134	1,424	1,372	1,949	1,428
Other Liability	26,255	26,620	27,051	28,830	30,021
Grand Total -all policies-	85,143	84,320	63,913	68,984	72,027

SECTION 4: OVERALL MARKET PROFITABILITY & FINANCIAL REGULATION

Businesses that provide a financial service must be financially sound. An insurance contract has little value to the insured if there is no confidence the insurance company will have the money to pay claims when needed. In determining whether the overall marketplace is viable, the Department has considered a number of factors related to profitability and financial solvency.

PROFITABILITY

One measure of a company's financial performance is its profitability. Any for-profit organization must generate enough profit to survive and succeed. In a given month, if expenses exceed income they must be paid from reserve funds. If the trend continues, reserve funds run out causing the business to collapse. Therefore, it is imperative that insurance companies manage income and expenses to assure profitability and survival. When the majority of insurers in the market are competitive and profitable, the market is considered to be financially strong. Overall, the following measurements indicate a stable market. However, it should be noted that elevated losses during the period resulted in downward pressure on several individual statistics.

One measure of overall profitability is change in policyholders' surplus. This ratio measures a company's ability to increase policyholders' security. Policyholders' surplus is made up of: 1) underwriting gains or losses; 2) investment gains or losses; and 3) net contributed capital and other surplus changes. The following chart summarizes the change in policyholders' surplus for the Illinois-licensed property/casualty industry as a whole over the past five years.

**Change in Policyholders' Surplus
(2010 – 2014)**

Source: NAIC State Data Network

Another measure of overall profitability is return on policyholders' surplus. This ratio measures a company's overall profitability from underwriting and investment activity after taxes. It represents the financial cushion that protects policyholders in case of unexpectedly high claims. The return on policyholder surplus is determined as the sum of the net income after dividends, taxes, and unrealized capital gains divided by the average of the current year and policyholders' surplus from prior year.

The following chart summarizes the aggregate return on policyholders' surplus from 2010 through 2014 for the overall Illinois-licensed property/casualty industry. The return on policyholders' surplus experienced a decrease during 2014 but remains at a level consistent with prior years.

**Return on Policyholders' Surplus
(2010 – 2014)**

Source: NAIC State Data Network

The following table provides a summary of income from investments, net income, unrealized capital gains/losses and policyholders' surplus from 2010 to 2014 for all property/casualty insurers licensed in Illinois.

**Net Investment Income Earned, Net Income,
Unrealized Capital Gains/Losses and Policyholders' Surplus (in millions)**

	2010	2011	2012	2013	2014
Net Investment gain	\$54,172	\$51,062	\$51,828	\$63,754	\$60,969
Net Income	\$38,722	\$19,641	\$36,688	\$67,228	\$59,843
Unrealized Capital Gains/Losses	\$13,800	(\$3,919)	\$21,486	\$39,200	\$11,183
Policyholders' Surplus	\$572,767	\$562,469	\$599,880	\$684,102	\$707,515

UNDERWRITING EXPERIENCE

The following table identifies the aggregate underwriting gain/loss for Illinois-licensed insurers from 2010 - 2014. The increase in earned premium appears to have contributed to the improvement in net underwriting gain/loss.

Aggregate Net Underwriting Gain (Loss) (in millions)

	2010	2011	2012	2013	2014
Premiums earned	\$345,602	\$354,835	\$366,690	\$394,536	\$410,434
Losses incurred	212,975	239,896	227,625	219,690	235,219
Loss expenses incurred	43,075	43,163	44,587	45,928	47,738
Other underwriting expenses Incurred	97,794	99,623	104,518	114,221	115,520
Dividends to policyholders	<u>1,432</u>	<u>1,196</u>	<u>1,417</u>	<u>1,716</u>	<u>1,670</u>
Net underwriting gain/loss	(\$9,674)	(\$29,043)	(\$10,358)	(\$15,167)	(\$11,541)

INVESTMENT INCOME

One component of surplus is income derived from investments. The net investment income ratio measures income from invested assets relative to earned premiums. It is calculated by dividing net investment income (income from invested assets less investment expenses and depreciation on real estate) by earned premium.

The following chart shows the net investment income ratio for Illinois-licensed property/casualty insurers during the last five-year period. This ratio indicates the investment income component of overall profitability.

Net Investment Income Ratio

INSURANCE REGULATION PRINCIPLES

Although the Department cannot guarantee an Illinois-licensed insurer's profitability, we do monitor the financial solvency and strength of Illinois-licensed insurers in several ways including:

1. Maintaining a staff of accountants and specialists trained to identify a company's developing financial difficulties. The Department can then take steps to minimize potential losses to Illinois policyholders;
2. Working closely with insurance companies identified as having financial difficulties to minimize potential risk to policyholders, while attempting to resolve manageable problems or determine the need for rehabilitation or liquidation;
3. Employing field examiners for on-site evaluation of insurance company records;
4. Reviewing operations and compliance issues through scheduled, targeted, and special exams of known or suspected problems;
5. Maintaining a staff of actuaries who monitor the adequacy of loss reserves, cash flow testing, and proper valuation of assets;
6. Licensing and registering the many types of insurers, surplus lines producers, and risk sharing pools authorized by the Illinois Insurance Code and related Acts; and
7. Investigating unauthorized organizations or individuals thought to be conducting illegal insurance operations and taking regulatory action to remove them from the market to protect consumers from fraudulent activities.
