| Procedure to Determine the Income Tax Offset on the Unitary Method We will use Schedule U-1 to determine the income tax offset for companies using the Unitary Method. The allocation of the total income tax paid will be based on the Illinois premium written (including annuities, but excluding deposit type funds) by each individual company as a percent of the Unitary group total. This allocation is multiplied to the unitary calendar year amount paid and the result is the available income tax offset for that individual company. If the unitary group received a refund during the calendar year, the refund must also be allocated among the individual companies. If a member of the unitary group received a refund during the calendar year, the refund must be allocated among all members of the unitary | | | | | | | |
| | group. Only the net amount is allowed. | | | | | | |

Each unitary group must complete Schedule U-1 to be allowed the offset. Any unitary group that does not complete Schedule U-1 will not be allowed to use the Illinois Corporate and Replacement income taxes in the calculation of the privilege and retaliatory taxes.
