## Computation of Retaliatory Taxes

Under "215 ILCS 5/444 and 5/444.1" of the Illinois Compiled Statutes, when the laws of any other state require of companies domiciled in Illinois the payment of penalties, fees, charges or taxes greater than those required in the aggregate for like purposes under the laws of Illinois by companies domiciled in such states, the Director of Insurance is required to impose comparable requirements on a retaliatory basis. All insurance related taxes and fees, including premium taxes, based on the State of Incorporation requirements, should be calculated below with the total carried forward to Page 6, Line 2 under Column 2. Please attach a detailed reconciliation incorporating the Illinois data in place of the State of Domicile data.

**Procedure to Determine the Income Tax Offset on the Unitary Method**

We will use Schedule U-1 to determine the income tax offset for companies using the Unitary Method. The allocation of the total income tax paid will be based on net income of each individual company as a percent of the Unitary group total. Net income is defined as the sum of Schedule UB, Step 4 Line 3, Line 7, and Line 9 of the previous calendar year IL-1120. This allocation is multiplied to the unitary calendar year amount paid and the result is the available income tax offset for that individual company.

If the unitary group received a refund during the calendar year, the refund must also be allocated among the individual companies. If a member of the unitary group received a refund during the calendar year, the refund must be allocated among all members of the unitary group. Only the net amount is allowed.

Each unitary group must complete Schedule U-1 to be allowed the offset. Any unitary group that does not complete Schedule U-1 will not be allowed to use the Illinois Corporate and Replacement income taxes in the calculation of the privilege and retaliatory taxes.
